RACE WITH TIME TO RECOVER MINE VICTIMS

SQUEEZE FEARED BY INDIANA MINE RESCUE WORKERS

SINKING OF EARTH MAY CUT OFF
ROOMS CONTAINING
BODIES

DESPERATE ATTEMPT IS BEING
MADE TO REACH 34 EN-
TOMBED MEN

(By United Press)

Sullivan, Ind., Feb. 21.—Seven-ty-six children and 44 widows are known to be survivors of the 51 mine dead. A record compiled by the mine weigh checkman showed that only seven of the dead were single men. Frank Smith, one of the victims, is reported as leaving a widow and ten children. Perry Maxwell, another victim, leaves a widow and six children.

Sullivan, Ind., Feb. 21.—The dead in the City mine disaster here total 50, mine officials declared today as rescuers dug desperately to reach 34 men entombed in the diggings. Sixteen bodies have been recovered.

Rescue workers came to the top at 7 a. m. and announced they feared a "squeeze" in rooms 3 and 4 of the north end. If the slide occurs some of the bodies will be buried in the earthside, they fear.

This report tended to speed up rescue work, men racing with time to carry out the remaining 34 bodies from the west entry rooms.

There is no question but what all the men are dead. S. J. Wilton, deputy state mine inspector, said this morning that no one could possibly be alive.

A "squeeze" following an explosion is a sinking of earth and it is feared one may cut off rescuers from some of the bodies. Rooms in one section of the mine are but 4 feet 11 inches high.

The mine was cleared of all men at 6 o'clock last night for a test of conditions. It was 4 hours before rescuers again entered into the shaft. They re-appeared, explaining that they could only go 700 feet owing to gas conditions. When the next body will be hoisted to the top is a question of time. It may be momentarily, or it may be some time before the bodies are recovered.

T. O. Thomas, check weighman at the mine, said this morning that if all the men were in their right positions at the time of the disaster 21 would be buried by the "squeeze" and 13 would be scattered in other sections of the mine. Recovery of the latter bodies would be more probable, he said, although Mine Inspector Wilton refused to comment on any possible "squeeze" he had referred to. Dirt, rock and slate falls would delay rescuers.

It took two hours, according to Wilton, to reroute rescuers in their crawls through the mine. The men are forced to push air before them.

One hundred and thirty-five men were in the mine when the explosion occurred yesterday. Eighty-five men, many bleeding at the nose and black in the face, crawled up through the air shaft within half an hour after the explosion. Bleeding from the nose was caused by men sticking two fingers into their nose as far as possible to keep out gas that threatened them as they slowly climbed the ladders, falling exhausted when they reached the top, one at a time. The first injured man brought to the top was Emory Davidson. He was injured by falling slate near the entrance of the mine. He is resting easily in a hospital and probably will recover.

Checkmaster Thomas and Inspector Wilson in a final check of the men in the mine said they knew of only 34 bodies remaining.

Automobiles from all over Sullivan and the surrounding county began arriving early this morning. State guards, police, boy scouts and ex-service men and others were here. Police were ordered to keep the machines at a distance of at least a mile from the mine.

One of the most tragic figures of the affair is John Flieder, mine engineer who sent the 35 men into the mine for their daily task. He worked throughout the night, and in the

Canada Protests Chicago's Withdrawal of Water

FARM RELIEF WINS FAVOR OF SENATE AFTER HARD FIGHT

(By United Press)

Washington, Feb. 21.—The Capper-Haugen bill, the first measure in the president's farm relief program, accompanied by a score of amendments, was reported out favorably by the Senate agricultural committee today. A fight lasting more than two hours preceded the committee's action, which was taken without a record vote. Smith, South Carolina and Ralston, Democrat, Indiana, led the fight against reporting the bill.

"GOOD BAD WOMAN" TO BE WITHDRAWN

ACTRESS WINS FIGHT TO END RUN OF PLAY SHE STARS IN

New York, Feb. 21.—Coincidentally with the announcement by William A. Brady that he would withdraw his play "The Good Bad Woman," after tomorrow night's performance, the press agent for Helen MacKellar, star of the piece, got on the job.

"Ten thousand letters and telegrams congratulating Miss MacKellar on her stand in starting the nationwide movement toward cleaning up the theatre have been received," the newspapers were informed.

The actress also received a threatening letter which asked tersely: "What kind of a woman are you to come out in such an act as that?" the press agent said.

Investigation of other plays, considered offensive, will continue, District Attorney Blanton said.

The "Good Bad Woman" was written by William McNally of Minneapolis.

morning he still refused to leave the levers which sent the cage into the mine.

"I sent them into the mine, and I'm going to hoist every one of them to the top before I quit," he replied obstinately to every attempt to relieve him.

Flieder's face is a mask of suffering. He stands tense and expectant, waiting for the signal to lift the cage.

Sandwiches and hot coffee were served throughout the night to rescuers, volunteers and bystanders, at the temporary Red Cross barracks erected first as an emergency hospital for fainting and hysterical women.

The gas explosion was not heard above the ground. Check weighman Thomas, who was on top of the 130-foot tippie, said he heard a sizzling noise and then a violent gust of air from the cage as it struck the top of the tippie, wrecking it and shattering tin from the siding. Russell Stewart, fire boss at the mine, was the first to enter the mine after the explosion. Equipped with only a safety lamp, he braved the dangers of the after-damp in order to get lined up on where his men were. Stewart remained in the mine four hours. He was hoisted to the top on a stretcher and physicians revived him.

Later Stek Williams, one of the 34 who escaped from the airshaft, fell to the ground bleeding and choking violently. As soon as he was recovered he was again on his way into the mine to rescue if possible his less fortunate fellow workers. Others followed him. Every rescue worker going into the mine this morning was thoroughly searched by inspectors for matches and other substances which might ignite the gas.

33 BODIES YET TO BE REMOVED

Sullivan, Ind., Feb. 21.—With the hoisting of the body of Harry Anderson, mine superintendent, to the top shortly before noon today, 33 bodies yet remained in the mine to be recovered. Anderson was the eighteenth victim to be taken from the mine, after the disaster which took the lives of 51 men.

CHILD BORN AFTER AUTOMOBILE CRASH WHICH KILLED FATHER, MOTHER AND 18 MONTH OLD BROTHER

Above is pictured the wreckage of the car in which Sidney Kahn of Los Angeles, his wife and son were riding when the accident occurred. Mrs. Kahn an expectant mother was rushed to the hospital where a Caesarian operation was performed bringing into the world the child seen in the insert. Mrs. Kahn died soon after the operation leaving the new born babe the sole survivor of the tragedy.

OSBORN WOOD HAS DISAPPEARED FROM HIS PARIS HOTEL

LEFT BAGGAGE IN CHARGE OF THE UNPAID CHINESE VALET

NO CLUES TO INDICATE AS TO WHERE HE MAY HAVE GONE

(By United Press)
Paris, Feb. 21.—Osborn Wood, son of Major General Leonard Wood, has disappeared from his hotel here, leaving behind him an unpaid hotel bill, an unpaid Chinese valet who is very cheerful and various other debts.

Wood has now been missing from the Hotel Crill for six days. He left his baggage in charge of the unpaid valet, taking only a small handbag with him. He is reported to have driven to a restaurant in the Latin quarter. That is the last trace that has been found of him. No clues have been found indicating where he may have gone from the restaurant.

A year ago young Wood was reported to have cleaned up a fortune by long distance speculation in Wall Street while in the Philippines. His disappearance followed conflicting reports of new market operations, some to the effect that he had profited further and some that he had lost heavily.

Skyscrapers are still being urged for London, and indeed the sky needs them badly enough.—Punch.

JACK PHEIFFER RELEASED TODAY

EXTRADITION PROCEEDINGS ON ROBBERY CHARGE HAVE BEEN DROPPED

(By United Press)
St. Paul, Feb. 21.—The extradition request for Jack Pheiffer in connection with the robbery of the Northwest National Bank of Milwaukee on December 8 has been definitely dropped and Pheiffer released today, it was announced by Assistant Attorney-General Rollin Smith.

Hearing on the case for extradition to Milwaukee of Jack Davenport, held in Minneapolis, also wanted for alleged participation in the holdup, was continued until Tuesday to give Milwaukee county authorities more time to obtain additional evidence.

RUM PRESCRIPTIONS WORTH \$2 EACH AT RETAIL, JURY FINDS

Faribault, Minn., Feb. 21.—Liquor prescriptions are worth \$2, retail, and under no circumstances should be rated at \$5 by a physician, a jury in district court here decided Thursday.

The prescription valuation came before the court when John W. LeCrone sued Dr. M. L. Mayland for \$2,400 claimed due as attorney's fees. Dr. Mayland filed a counter claim for \$490, which he listed as being 98 liquor prescriptions at \$5 each.

The jury returned a verdict of \$2,100 for Mr. LeCrone and \$196 for Dr. Mayland.

STRICT ORDERS FOLLOW TROOP TROUBLE IN CUBA

DRASTIC STEPS TAKEN TO CON- FINE TROOPS TO THEIR QUARTERS

AUTHORITIES MAKING ATTEMPT TO SUPPRESS STORY OF KILLING

(By United Press)
Havana, Feb. 21.—Ill feeling between government troops and police following the killing of an army officer by a policeman when the former is said to have insulted an American woman tourist in a cabaret, has resulted in drastic military orders confining troops to quarters.

Police say the army officer was with four Americans, Mr. and Mrs. E. C. Atkins of Indianapolis, and Mr. and Mrs. L. V. Tracy of Elkhart, Ind., when he was shot. Authorities are making every effort to suppress details of the affair.

CROSSWORDS YIELD GOLF COURSE PLAN

Seattle, Feb. 21.—Studying the design of an original crossword puzzle in a local newspaper, John Ball conceived an idea for the northwest's newest golf course, soon to be laid out on Mercer Island.

Ball has built several links here and in other Pacific coast cities, but was at a loss just how to lay out this particular course.

Finally the black squares and crosses in the printed puzzle pictured for him the correct hazards, tree groves, avenues and green sward and he quickly jotted it down on paper.

CONGRESS PASSED SALARY INCREASE IN RECORD TIME

TAKES ONLY FIVE DAYS TO BOOST ITS OWN SALARY

POSTAL WORKERS' BILL PEND- ING FOR NEARLY A YEAR

(By United Press)
Washington, Feb. 21.—Without a smile today Congress handed President Coolidge a measure it passed quicker than any law this season, a law to increase its own salary \$2,500 a year to a total of \$10,000 for each member.

And even though Mr. Coolidge is shy on ink and erasers in the White House because of economy, it is believed he will not refuse to sign it because it is included in the legislative appropriation bill. The congress raised its pay in five days. The postal salaries increase bill which would have given postal workers an average raise of \$300 a year is being torn apart by conferees and has not yet finally passed, even though it has been pending for nearly year. The bill to increase the salaries of United States judges is not much favored and probably will not be passed this session.

Congress has raised no other person's pay this session. It voted a \$2.81 per year increase for charwomen at the capitol, but this was done so pay figures would come out even at the end of the year and save government accountants extra work.

LEGISLATURE IS HOST TO N. D. GUESTS

DELEGATION FROM SISTER STATE ON QUESTION OF INTER- STATE BRIDGES

(By United Press)
St. Paul, Feb. 21.—The Minnesota legislature was visited yesterday afternoon by a delegation from the North Dakota house and senate for a conference on questions involved in the construction of interstate bridges.

Early in the session a Minnesota legislative committee was named for this purpose and requests were made of Wisconsin, North and South Dakota to name similar committees. So far North Dakota is the only state which has done so.

THREE BANDITS TAKE \$50,000 IN BANK HOLDUP

(By United Press)

Millburg, Mich., Feb. 21.—Three bandits held up the Millburg bank shortly after the opening hour today, scooped up \$2,000 in cash and \$50,000 in non-negotiable securities and escaped in an automobile. Only Benjamin Krall, cashier, and Miss Elizabeth Kreitner, teller, were in the bank at the time of the robbery.

FORD SELLS OWN BONDS TO HIMSELF

CHEATS BROKERS OUT OF LARGE COMMISSIONS ON RAIL- WAY BONDS

Detroit, Mich., Feb. 21.—Innovations have become the usual thing with Henry Ford.

But the other day he uncovered a trick that startled financiers and railroad executives alike.

He applied for permission to sell himself \$1,181,000 5 per cent bonds, eliminating the banker's commission for such transactions, at a higher rate than similar issues generally demand.

Henry Ford, owner of the Detroit, Toledo & Ironton railroad, proposed to sell to Henry Ford, the automobile manufacturer, these bonds at par. Not only will the railroad receive a high rate for the bonds, but the Ford Motor Co. can put to use at 5 per cent its surplus funds, which is a fair rate in the money market today, it was pointed out.

He is, in other words, the seller, the buyer and the banker. As has been his custom, he eliminates the middleman, which in this case is the banker.

The funds are to be used in the construction of 20 miles of railroad between Flat Rock and Durban, Mich.

CANADA OBJECTS TO ENGLAND SENDING BOSS

Ottawa, Feb. 21.—"Canada should appoint her own governor-general instead of having that office filled by a man sent here from England by favor seeking political advisers," parliament members argued in a debate on that question Thursday night.

Following expiration of Lord Byng's term, the Canadian cabinet should name his successor, members of the government said.

The Prince of Wales has been mentioned as a possible successor to Lord Byng but the latter's term has two years to run and no decision is likely to be reached until he is about to retire.

Member Vlen of the government would have the British parliament adopt a hands off policy as regards appointment of Canada's executive chief.

Navy Dirigible Circles Bermuda Islands Today

(By United Press)

Washington, Feb. 21.—The dirigible Los Angeles after circling the Bermuda Islands turned and started back to its hangar at Lakehurst, N. J., without mooring to the U. S. Paloka, the navy department was advised by radio from the ship today. The start back was made at 10:10 a. m. eastern time.

THREE MEN KILLED IN BIG EXPLOSION

(By United Press)

Philadelphia, Feb. 21.—Three men were killed and a number were injured and others are missing as the result of two terrific explosions which wrecked an oil tanker of the Gulf Refining company Point Breeze plant on the Schuylkill River today.

IS INIMICAL TO INTERESTS OF THE NORTH COUNTRY

PLAN WOULD WITHDRAW 8,500 CUBIC FEET PER SECOND

ASK THAT RESTORATION BE MADE TO NATURAL CONDITION

(By United Press)

Washington, Feb. 21.—The Canadian government has addressed a protest to the state department through diplomatic channels to the war department protesting against a request of Chicago for a permit to withdraw 8,500 cubic feet of water per second from Lake Michigan on the ground that such water diversion is inimical to Canadian interests.

This protest was presented by J. M. Stewart, representing the Canadian government, and Secretary of War Weeks. At a hearing on the withdrawal permit Stewart asked stoppage of such huge water withdrawals by Chicago and restoration of natural conditions.

He said he had just been informed by his government that it had officially protested to the state department and this action was in accordance with repeated Canadian protests since 1920.

SENIORS AT VASSAR PLAN TO ABOLISH 'DAISY CHAIN' FETE

Poughkeepsie, N. Y., Feb. 21.—The senior class at Vassar college is considering taking steps toward the permanent abolition of the daisy chain, the unique and historic feature of Vassar's commencement week. Definite action is expected early in March.

Some critics have declared that the daisy chain is "too much like a bathing beauty contest" and that the publicity it attracts is undesirable and out of harmony with the academic aims of the college.

The daisy chain, borne in advance of the seniors on class day by 24 sophomores adjudged the most beautiful of the college, has been a feature of the exercises for many years.

R. B. MINAHAN BURIED FROM FATHER'S HOME

Green Bay, Wis., Feb. 21.—Robert B. Minahan, 21, Northwestern university student, who killed himself in a park in Milwaukee Monday was buried from the home of his father, Dr. John R. Minahan, prominent surgeon, here today.

Investigators in the case today were convinced that young Minahan had some reason other than an unrequited love affair for ending his own life.

It was believed the note, which was found on the body, was nothing more than a deliberate plan to confuse authorities in identifying him. They are practically certain that the names used in a supposed love letter found on the body are fictitious.

THREE INDIAN BOYS GLAD TO BE JAILED

Winona, Minn., Feb. 21.—After tramping 100 miles over railroad ties, three little Indian boys were glad to stay in the jail here until officials from the Tomah Indian school come to take them back.

The boys, giving their names as John, Henry and August Staples, are 9, 10 and 12 respectively, were almost famished when picked up here, and ate food set before them with great dispatch.

After finishing a hearty meal they seemed little the worse for their long and arduous tramp, and said they had not suffered from the cold, but were tired.

The boys escaped from the Indian school.

R. B. MINAHAN BURIED FROM FATHER'S HOME

Green Bay, Wis., Feb. 21.—Robert B. Minahan, 21, Northwestern university student, who killed himself in a park in Milwaukee Monday was buried from the home of his father, Dr. John R. Minahan, prominent surgeon, here today.

Investigators in the case today were convinced that young Minahan had some reason other than an unrequited love affair for ending his own life.

It was believed the note, which was found on the body, was nothing more than a deliberate plan to confuse authorities in identifying him. They are practically certain that the names used in a supposed love letter found on the body are fictitious.

THREE INDIAN BOYS GLAD TO BE JAILED

Winona, Minn., Feb. 21.—After tramping 100 miles over railroad ties three little Indian boys were glad to stay in the jail here until officials from the Tomah Indian school come to take them back.

The boys, giving their names as John, Henry and August Staples, are 9, 10 and 12 respectively, were almost famished when picked up here, and ate food set before them with great dispatch.

After finishing a hearty meal they seemed little the worse for their long and arduous tramp, and said they had not suffered from the cold, but were tired.

The boys escaped from the Indian school.

HOME REMODELING AND REPAIRING

IOWA, MINNESOTA, DAKOTAS AND NEBRASKA FACE BIG SEASON OF SAME

Minneapolis, Feb. 20.—Iowa, Minnesota, the Dakotas and Nebraska face a big season of home-remodeling and repairing, according to F. B. Gibbs Jr., of this city, western sales manager of the United States Gypsum Company. Mr. Gibbs has just returned from a survey-trip through these states, which indicates that the building trades, real estate men and all merchants who supply materials for homes will prosper this year.

"One of the largest firms manufacturing bathroom fixtures recently made an investigation to size up its prospects," said Mr. Gibbs. "It revealed that so many homes already built in the United States lack sanitary bathrooms that the whole bathroom industry would be kept busy for 25 years supplying one to each house that needs one without a single order for fixtures in new houses!"

"This is similar to conditions that I found throughout the West. The up-keep of homes has fallen off in recent years. Folks who moved into the large cities on the receipt of war prices for farm-products had to move back during the later bad times. They have found that their homes have fallen into ill-repair. Now that prices have turned better again, the improvement and remodeling of farm and town homes is the first thing owners must spend money for."

Modern materials make repair and remodeling jobs less costly and difficult than they used to be, Mr. Gibbs continued. He referred to Sheetrock, the fireproof gypsum wallboard, as typical of these modern materials. "It is especially adapted to repairing old walls and ceilings, making new rooms out of unused attics and insulating walls and ceilings through which there is large heat-loss. It is also, of course, adapted to new building of the best permanent type."

Mr. Gibbs described numerous improvements to farm buildings that can be accomplished with this "mineral lumber."

PAINT INDOORS NOW!

Flat wall paint is a most durable, artistic and pleasing decoration for your rooms. Better prices now before outside painting begins. Also kitchen painting; bathroom enameling; wood-work, floors, etc. I use the finest materials made.

"THREE WISE FOOLS" SCORES BIG SUCCESS

Hamline Players Well Received in Play at Methodist Church Wednesday Night

ENTERTAINED IN CITY HOMES

Three Auto Loads From Bertha Came to Witness the Local Performance

The play, "Three Wise Fools," Austin Strong's comedy, played by the Hamline University Dramatic Club at the First Methodist church last Wednesday was a success from every angle.

In spite of the fact that the Senior class play was given the same night the Hamline players had a house of over two hundred people. Everyone was well pleased with the play and the players.

Three auto loads of school children from Bertha, Minn., drove to Brainerd to see the play. The Bertha high school intends to give this play in their city and came to Brainerd to study the production.

The players were entertained in the homes of members of the Young Peoples' department of the church. Thursday noon the troupe left for Aitkin, where they played that evening.

It is hoped by those attending the play that Brainerd will again have an opportunity of hearing the Hamline players.

Marble head of Caesar has been found under the Hudson river. Mystery is, who spilled the bean? — Brooklyn Eagle.

Brainerd to Carlton

Great difficulties attended the building of the railroad in 1871 from Brainerd to Carlton (then N. P. Junction). "In some places the track would sink out of sight over night. Only persistent work of filling and re-routing could solve the problem." But the road was finished and one could take "a proud little train" to the junction and thence to Duluth.

In building a railroad, as in building a banked reserve—persistence wins.

SATISFYING DESIRE FOR A HOME

INCREASING attention is being given by business and civic organizations to the need of helping families who buy or build houses to attain their desire for a home—not merely a place to live. Public opinion in this direction is finding help through Better Homes in America, an educational movement with headquarters at Washington, D. C. The president of this organization is Secretary of Commerce Hoover and the advisory board includes President Coolidge as honorary chairman and several other members of the cabinet.

The organization, formed three years ago, has been cooperating with hundreds of communities in stimulating public interest in better homes. Its operations have culminated in Better Homes Week demonstrations which have been conducted by these communities to show how building, furnishing and owning of private homes by the people at large can be encouraged.

To meet the needs of families of small or moderate means, the efforts of Better Homes in America in the various centers where demonstrations have been carried on have been focused on small homes of limited cost.

In its efforts to help overcome the present shortage of American homes, Better Homes in America, through community organizations, seeks to demonstrate the advantages of thrift for home ownership, to assist and encourage home makers and home builders in order that a wholesome life may be made available to all, and the home environment may be improved with a resultant increase in the efficiency of the wage earner of the home.

The movement is being spread through the schools, where the development of practice homes for the teaching of home making has had wide application, both in domestic science, manual training and other classes. The results of this work have been made apparent by the widespread interest shown in Better Homes Week demonstrations by Girl Scouts, Boy Scouts, Camp Fire Girls, and many other organizations of young people.

Quick recognition was given to the idea of home betterment in the rural communities as well as in the towns and cities; and the Better Homes Week demonstrations of the last two years have found an increasing number of rural communities taking part. One of the smallest such demonstrations involved a group of only 12 families, which made up in spirit what they lacked in numbers; while there were reported a number of cases where the rural groups conducting Better Home Week observations were only slightly larger.

Among the rural communities which made a record in the 1924 Better Homes Week was Albemarle county, Virginia, where, at Charlottesville, an old, abandoned farmhouse was reconditioned, furnished, and demonstrated to thousands of visitors from all over the county. This was one of the communities to win one of the prizes offered by Better Homes in America.

A city of renters indicates a migratory condition of inhabitants, here today, and gone tomorrow. A city of homes indicates permanency and its home owners take a deep interest in the conduct of city affairs. To aid people to build homes is one of the most laudatory things which can be done. So assisting at all times and not just centering its attention on the Better Homes Week, but devoting itself to the ideal that every one of the 52 weeks in any year is a good time to start planning for a home, is our local institution, our building and loan association, fostered by public spirited citizens. The association shows a remarkable growth in business done, assets accumulated and as it continues to grow, its influence continues to radiate immeasurable good and the welfare of Brainerd is materially increased.

BORROWING MONEY FOR ROADS

It is not extravagance for a family to borrow money to build a home, reasons the Minneapolis Daily Star. Why, therefore, should it be extravagance for a state to borrow money for roads.

Good roads pay dividends. Tires wear longer. Gasoline gives a greater mileage. Wear and tear on automobiles is reduced and they last longer.

Villages and rural communities are made accessible to towns and cities, reducing the time lost by farmers in going to town, reducing in some instances the prices the rural dwellers have to pay, enlarging the business of small town stores, bringing better markets to within reach of the farmer.

Good roads are money in everybody's pocket. They bring new money to the state, with tourist automobiles. They help circulate it in the state and they facilitate the movement out of the state of those articles which bring most money back. They add immeasurably to the pleasure of living in Minnesota.

The state highway department has shown that a good road will actually earn the interest on the bonds issued to build it and pay off the principal at the same time. If this is the case it is the part of financial wisdom to put these roads to work as soon as possible whether we have to borrow the money or not.

THEY DON'T LIKE THEIR CITY DIRECTORY

SUPERIOR does not seem to be served with a satisfactory city directory, if one is to believe statements attributed to the Superior Rotary club and mentioned in the Duluth News Tribune. Speakers claimed hundreds of Superior residents do not appear in the 1925 edition.

The "gas plant" district seems to have been missed entirely. Another Rotarian asserted the directory did not contain the names of Superior residents who were employed in Duluth, but that such persons were listed in the Duluth directory and thus helped to swell Duluth's population.

That reminds us of a census taken in Seattle which included a big detachment of soldiers happening to camp in town that day. Brainerd, on the other hand, has a directory compiled by John H. Ley of St. Cloud, and it's a model of its kind. Everybody is properly listed, nobody is forgotten, because John checks and double checks his work. He checks the residence section, the business districts, the payrolls and every other source of information. If they had a few John H. Ley's in Superior they would find no fault with their city directories.

WELL existed lanes of air travel exist between the mainland of America and the Bermudas and so the "Los Angeles" should have no difficulty in negotiating the trip.

"LISTENING IN" ON WHISTLING MARMOTS POPULAR PASTIME

Washington, Feb. 21.—When the whistling marmot grows old, its neck wrinkles and the puckering strings of its melodious sounding box shrink, causing its voice to tremble like that of a "bronchial broken" old man. The aged animal then abandons his open air broadcasting station and hides under a ledge where the proscenium arch effect vibrates the notes more to its self-satisfaction.

Summer tourists in Glacier National Park, the home of America's colony of a million whistling marmots, make a regular outdoor sport of "listening in" on these squeaky voiced old marmots. Trail sightseers get quite a "kick" out of these "cavern solos."

Put Them In Jail!

(Frederick Palmer in the American Legion Weekly.)

"I'll land the stuff in spite of hell and damnation," a rum runner is reported as saying. If he is to make this remark again I hope that it will be in jail. It is in defiance of the government and the law. When the United States makes up its mind to enforce a law that law will be enforced. Its swift new rum-chasers

are making good. Less and less foreign liquor is being landed. Those who will have alcoholic drinks must depend more and more upon home-made synthetic poison. Many Americans may patronize bootleggers, many may object to the Volstead Act as an infringement of personal liberty, more of us may believe that the Volstead Act should be amended to permit of light wines and beer; but none of us can have anything but contempt for anybody who makes his living as a bootlegger. Admiration

of a bootlegger's cleverness in breaking the law only leads to the breaking of other laws. It helps to spread crime. It makes crime admirable.

Lively's stock of Ford parts is complete in every detail. Open day and night.

We can get along very well without elevating our navy guns if congress will only elevate its sights.—Omaha Bee.

SATISFYING DESIRE FOR A HOME

INCREASING attention is being given by business and civic organizations to the need of helping families who buy or build houses to attain their desire for a home—not merely a place to live. Public opinion in this direction is finding help through Better Homes in America, an educational movement with headquarters at Washington, D. C. The president of this organization is Secretary of Commerce Hoover and the advisory board includes President Coolidge as honorary chairman and several other members of the cabinet.

The organization, formed three years ago, has been cooperating with hundreds of communities in stimulating public interest in better homes. Its operations have culminated in Better Homes Week demonstrations which have been conducted by these communities to show how building, furnishing and owning of private homes by the people at large can be encouraged.

To meet the needs of families of small or moderate means, the efforts of Better Homes in America in the various centers where demonstrations have been carried on have been focused on small homes of limited cost.

In its efforts to help overcome the present shortage of American homes, Better Homes in America, through community organizations, seeks to demonstrate the advantages of thrift for home ownership, to assist and encourage home makers and home builders in order that a wholesome life may be made available to all, and the home environment may be improved with a resultant increase in the efficiency of the wage earner of the home.

The movement is being spread through the schools, where the development of practice homes for the teaching of home making has had wide application, both in domestic science, manual training and other classes. The results of this work have been made apparent by the widespread interest shown in Better Homes Week demonstrations by Girl Scouts, Boy Scouts, Camp Fire Girls, and many other organizations of young people.

Quick recognition was given to the idea of home betterment in the rural communities as well as in the towns and cities; and the Better Homes Week demonstrations of the last two years have found an increasing number of rural communities taking part. One of the smallest such demonstrations involved a group of only 12 families, which made up in spirit what they lacked in numbers; while there were reported a number of cases where the rural groups conducting Better Home Week observations were only slightly larger.

Among the rural communities which made a record in the 1924 Better Homes Week was Albemarle county, Virginia, where, at Charlottesville, an old, abandoned farmhouse was reconditioned, furnished, and demonstrated to thousands of visitors from all over the county. This was one of the communities to win one of the prizes offered by Better Homes in America.

A city of renters indicates a migratory condition of inhabitants, here today, and gone tomorrow. A city of homes indicates permanency and its home owners take a deep interest in the conduct of city affairs. To aid people to build homes is one of the most laudatory things which can be done. So assisting at all times and not just centering its attention on the Better Homes Week, but devoting itself to the ideal that every one of the 52 weeks in any year is a good time to start planning for a home, is our local institution, our building and loan association, fostered by public spirited citizens. The association shows a remarkable growth in business done, assets accumulated and as it continues to grow, its influence continues to radiate immeasurable good and the welfare of Brainerd is materially increased.

BORROWING MONEY FOR ROADS

It is not extravagance for a family to borrow money to build a home, reasons the Minneapolis Daily Star. Why, therefore, should it be extravagance for a state to borrow money for roads.

Good roads pay dividends. Tires wear longer. Gasoline gives a greater mileage. Wear and tear on automobiles is reduced and they last longer.

Villages and rural communities are made accessible to towns and cities, reducing the time lost by farmers in going to town, reducing in some instances the prices the rural dwellers have to pay, enlarging the business of small town stores, bringing better markets to within reach of the farmer.

Good roads are money in everybody's pocket. They bring new money to the state, with tourist automobiles. They help circulate it in the state and they facilitate the movement out of the state of those articles which bring most money back. They add immeasurably to the pleasure of living in Minnesota.

The state highway department has shown that a good road will actually earn the interest on the bonds issued to build it and pay off the principal at the same time. If this is the case it is the part of financial wisdom to put these roads to work as soon as possible whether we have to borrow the money or not.

PINE RIVER'S NEW CIVIC CLUB

Brainerd Lions Cause Emulative
Spirit to Enthuse Sister
Town

MAY START NEW LIONS CLUB

Pine River Sentinel-Blaze Tells of
Addresses Delivered by
Brainerd Men

The town of Pine River is anxious to organize a civic club, and has asked the Brainerd Lions club to assist in this project. The following is taken from the Pine River Sentinel-Blaze, and is an account of the first step in the establishment of a lunch-club there.

Pine River has had an Auto Club, a Commercial Club, and no doubt other clubs that were intended to act as civic agencies for the community's upbuilding. For some reason or other these clubs have gone by the board and no longer function as they should.

The need of a civic club has been keenly felt and the meeting that was held at the Armory Wednesday night is a good start in the right direction.

Over thirty men were in attendance and listened very attentively to Messrs. D. H. Fullerton and R. L. Geist of Brainerd, who are members of the Brainerd Lions Club. They gave brief outlines of the purposes and aims of their club and recited some of their accomplishments.

These men were invited to visit Pine River and give some ideas on the formation of a club, and being Lions, of course were interested in making the local club a Lions Club. The subject was gone over thoroughly and many valuable suggestions offered by local men, but the naming and complete organization was deferred until a later date.

This community has many problems that could be handled to much better advantage if a group of its citizens were formed into a club and worked as a unit instead of as individuals. This community has resources way above the ordinary that can be very readily cashed in on if handled right, and everyone would thereby benefit.

Another meeting will be called in the near future. The club to be formed is not to be understood as being a strictly business men's club, but a Community Club and everyone interested should attend the meeting, date of which will be announced later.

STRICKEN BLIND, TEACHER BROUGHT LIGHT TO OTHERS

(By United Press)

Winnetka, Ill., Feb. 20. A free correspondence school for the blind has been established, tested and found to work in this city, recently proclaimed by Prof. William Bailey of Northwestern University as the best managed town in the United States. Its schools, also proclaimed the best, have been augmented by the Hadley correspondence school for the blind, which offers grade school, high school and university work for sightless students.

The school was named for its founder, William A. Hadley, an eminent Chicago educator, who was struck blind in 1915. Stricken, almost overnight, Prof. Hadley wondered if his study and education were to be of any avail. Then he was asked, after five years of study, if he could teach the Braille system by mail.

Winnetkans, appealed to, supplied enough funds to start a course. For the first year the financial status of the school was haphazard guesswork. A firm foundation was built thereafter, but the roster of pupils has been growing faster than the resources, and there is some discussion relative to the taking over of the school by the University of Chicago.

Personal letters, exchanged between the "faculty" and the students of the school, has revealed many human stories. One blind girl, who had been taught short story writing, expressed her gratitude by writing: "When the light went out of Prof. Hadley's eyes, the windows of heaven were opened for us."

Prof. Hadley himself says: "If I had to choose between having my right back, or my work, I would choose my work."

Take Time for Study

There can be no study without time, and the mind must abide and dwell upon things or be always a stranger to the inside of them.

Wise Resolution

I will adhere to the counsels of good men, although misfortune and death should be the consequence.—Cicero.

PLANNING TO INSURE SOME NEW HIGHWAYS

LAWMAKERS, COMMISSIONER JOIN
IN EFFORT TO AVERT TIE-UP
OF ROAD CONSTRUCTION

A group of state senators in recent conference with Highway Commissioner C. M. Babcock laid plans to enable the state to continue good roads work, although on a more limited scale. Members hoped to win Governor Theodore Christianson's approval for the proposals which follow:

First—To retain the motor vehicle tax as at present.

Second—To add a 2-cent tax on gasoline.

Third—To extend outstanding county reimbursement bonds that interest charges may be reduced, sinking fund demands lessened, county tax increases avoided and the need for the proposed \$20,000,000 state bond issue obviated.

Commissioner Babcock pronounced this legislative program entirely satisfactory. Although it will not enable Minnesota to keep pace with many other good roads states, he said, it will provide a moderate amount for needed highway improvements. The senators in turn agreed with the commissioner when he said:

"Minnesota people want good roads. They begin to see what the highway program will mean when completed. They do not want it brought to a dead standstill by a matter of county bond bookkeeping. And they are more interested in seeing the good roads work continued throughout Minnesota than in a few dollars reduction in the average car tax."

Mr. Babcock's new comment on legislative plans follows:

Auto Taxes—A minimum average of \$18 tax on motor vehicles was agreed to. But it has been below that figure under the new plan and last year the net figure was about \$15.50. The old personal property tax average was nearly \$19. The auto tax average for all states is \$20.35. The present tax is not a burden on owners of high-priced cars. The owner of a light car who cannot afford to pay \$1 a month toward better roads on which to ride, in lieu of all taxes on his car, may practice most effective economy by disposing of his machine and then the highway program will take nothing from him. Public welfare and good business demand that the present taxes be unchanged, regardless of what

Gas Taxes—A gallon of gasoline will take less than a day

from the average Minnesota automobile owner. When he buys 5 gallons the 10 cents of tax will be added in, and 20 cents on each 10 gallon purchase. He will hardly feel the tax. Yet it will buy for him \$4,000,000 of highway improvements. Gasoline prices in Minnesota were advanced 3 cents a gallon last month. The raises occasioned little comment, yet at the same time some people were greatly agitated over the proposal to take 2 cents on each gallon to extend the good roads that are earning their cost three times over by reducing depreciation, gasoline consumption, tire wear and like expenses.

Working Capital—Minnesota highway affairs are conducted in a businesslike manner. The department has paid off undue bonds to stop high interest charges. It has used road money to build up a sinking fund against county reimbursement bonds and in that way avoid increases in county taxes. All this is shown by official records of the state auditor and public examiner.

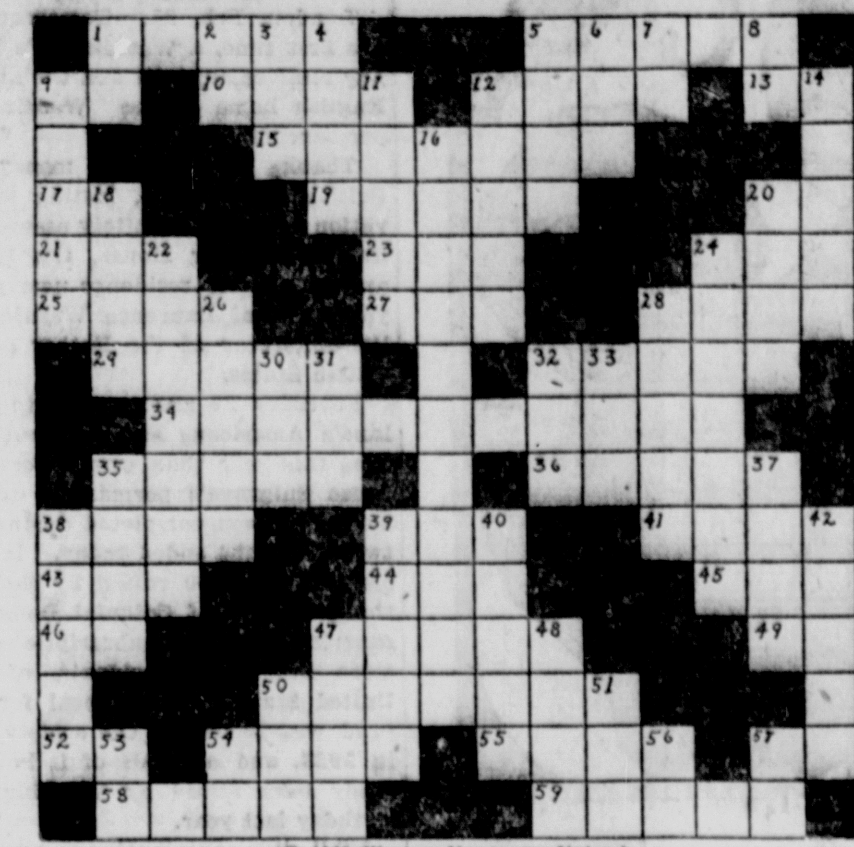

The department assumed that the public knew its affairs were being carried out along economical and efficient lines. Detailed explanations of refunding plans involving many figures were considered unnecessary. However, as details have been given out approval is coming from all sides. It is being plainly understood that the department is striving only to straighten out highway finances without unnecessarily delaying good roads progress.

The original state highway plan called for 5,800 miles of trunks. The legislature added 1,200 miles before submitting it to a vote of the people. The same legislature authorized bonds that started the plan out with more than \$26,000,000 of county bonds charged up against it. The total was increased through later legislation to more than \$33,000,000.

Counties issuing such bonds generally made them for a 10-year term. The result is that \$23,000,000 are coming due in 1929 to 1932 inclusive. To build up a sinking fund to pay off the bonds in those years will take a large part of the motor vehicle tax receipts each year in addition to the large sum already at aside for that purpose. First issues of state bonds were proposed to furnish an advance of working capital necessary to reduce interest charges and rearrange maturities of the county bonds and at the same time to avoid halting the highway program.

Now it is proposed to authorize a board of state officials to carry out the plan. This is entirely satisfactory to the highway department. The aim here is simply to give Minnesota highway users fair measure of good roads.

GLORIA SWANSON TO
RETURN HOME MAR. 4

Paris, Feb. 21.—Gloria Swanson will be able to leave the hospital, where she was operated on Wednesday, within a week, her physicians said today.

"Miss Swanson's condition is very favorable," her physicians said. "There is no cause for anxiety."

Marquis de la Falaise re al Cou-dray, who recently was married to the film actress, said he hoped to sail with his wife for New York March 4.

Miss Swanson developed an internal trouble following a fall from a horse during the filming of a scenario here and this was complicated by an attack of peritonitis, which necessitated the operation.

The Whale and Steamboat

George F. Baker, financier, said, on his return from Europe: "You can't squeeze blood out of a turnip, and if any European nation tells you its well off, you can rest assured it's bluffing—bluffing as hard as the Mississippi Whale."

"The Mississippi Whale and the Alabama Steamboat, two New Orleans roustabouts, were long distance swimmers, and they agreed one day to have a race to the death. Some sugar brokers put up a purse of \$10 for the man who should swim the longest distance.

"When the Mississippi Whale turned up for the race he was in swimming trunks, and had an old stove strapped on his back, and packages of bacon, coffee, bread and so on tied on his head and around his neck. The Steamboat stared at him in amazement.

"'Vittles? Vittles for what?' said the Steamboat.

"The Whale gave a shrug.

"'Doan yo' be axin' me to' nothing to eat on the way over, dass all,' he said. 'Mah fust stop is New York, and mah nex' is London.'"—Philadelphia Bulletin.

Raisins, Reasons and Remedies

Chemistry can analyze the blood and give us the constituent elements, but chemistry cannot take these same (or any other) elements and by any possible recombining reconstruct a drop of blood.

We can eat raisins with a reason far more potent than that they contain iron. They are fundamental, as are all fruits, to normal function.

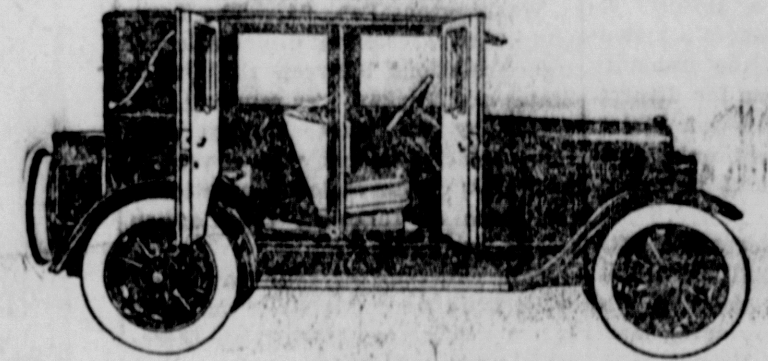

We only require remedies because we violate the law of life. The first step in getting well and then keeping well is to stop violating the law.

Shall we continue to violate this law so that we shall continue to require remedies, which, because of their very requirement, is an admission that we are deficient, and accordingly inefficient?

Replenishment is the law of life, and the use of Whole Grain Wheat means perfect replenishment because Whole Grain Wheat is the only food known to man that contains in balanced relation, the identical 16 elements of which man's body is composed.

THE BRAINERD DAILY DISPATCH

PINE RIVER'S NEW CIVIC CLUB

Brainerd Lions Cause Emulative
Spirit to Enthuse Sister
Town

MAY START NEW LIONS CLUB

Pine River Sentinel-Blaze Tells of
Addresses Delivered by
Brainerd Men

The town of Pine River is anxious to organize a civic club, and has asked the Brainerd Lions club to assist in this project. The following is taken from the Pine River Sentinel-Blaze, and is an account of the first step in the establishment of a lunch-club there.

Pine River has had an Auto Club, a Commercial Club, and no doubt other clubs that were intended to act as civic agencies for the community's upbuilding. For some reason or other these clubs have gone by the board and no longer function as they should.

The need of a civic club has been keenly felt and the meeting that was held at the Armory Wednesday night is a good start in the right direction.

Over thirty men were in attendance and listened very attentively to Messrs. D. H. Fullerton and R. L. Geist of Brainerd, who are members of the Brainerd Lions Club. They gave brief outlines of the purposes and aims of their club and recited some of their accomplishments.

These men were invited to visit Pine River and give some ideas on the formation of a club, and being Lions, of course were interested in making the local club a Lions Club. The subject was gone over thoroughly and many valuable suggestions offered by local men, but the naming and complete organization was deferred until a later date.

This community has many problems that could be handled to much better advantage if a group of its citizens were formed into a club and worked as a unit instead of as individuals. This community has resources way above the ordinary that can be very readily cashed in on if handled right, and everyone would thereby benefit.

Another meeting will be called in the near future. The club to be formed is not to be understood as being a strictly business men's club, but a Community Club and everyone interested should attend the meeting, date of which will be announced later.

STRICKEN BLIND, TEACHER BROUGHT LIGHT TO OTHERS

(By United Press)

Winnetka, Ill., Feb. 20.—A free correspondence school for the blind has been established, tested and found to work in this city, recently proclaimed by Prof. William Bailey of Northwestern University as the best managed town in the United States. His schools, also proclaimed the best, have been augmented by the Hadley correspondence school for the blind, which offers grade school, high school and university work for sightless students.

The school was named for its founder, William A. Hadley, an eminent Chicago educator, who was struck blind in 1915. Stricken, almost overnight, Prof. Hadley wondered if his study and education were to be of any avail. Then he was asked, after five years of study, if he could teach the Braille system by mail.

Winnetkas, appealed to, supplied enough funds to start a course. For the first year the financial status of the school was haphazard guesswork. A firm foundation was built thereafter, but the roster of pupils has been growing faster than the resources, and there is some discussion relative to the taking over of the school by the University of Chicago.

Personal letters, exchanged between the "faculty" and the students of the school, has revealed many amusing stories. One blind girl, who had been taught short story writing, expressed her gratitude by writing: "When the light went out of Prof. Hadley's eyes, the windows of heaven were opened for us."

Prof. Hadley himself says: "If I had to choose between having my right back, or my work, I would choose my work."

Take Time for Study

There can be no study without time, and the mind must abide and dwell upon things or be always a stranger to the inside of them.

Wise Resolutions

I will adhere to the counsel of wise men, although misfortune and death should be the consequence.—Cicero.

PLANNING TO INSURE SOME NEW HIGHWAYS

LAWMAKERS, COMMISSIONER JOIN
IN EFFORT TO AVERT THE-
OF ROAD CONSTRUCTION

A group of state senators in recent conference with Highway Commissioner C. M. Babcock laid plans to enable the state to continue good roads work, although on a more limited scale. Members hoped to win Governor Theodore Christianson's approval for the proposals which follow:

First—To retain the motor vehicle tax as at present.

Second—To add a 2-cent tax on gasoline.

Third—To extend outstanding county reimbursement bonds that interest charges may be reduced, sinking fund demands lessened, county tax increases avoided and the need for the proposed \$20,000,000 state bond issue obviated.

Commissioner Babcock pronounced this legislative program entirely satisfactory. Although it will not enable Minnesota to keep pace with many other good roads states, he said, it will provide a moderate amount for needed highway improvements. The senators in turn agreed with the commissioner when he said:

"Minnesota people want good roads. They begin to see what the highway program will mean when completed. They do not want it brought to a dead standstill by a matter of county bond bookkeeping. And they are more interested in seeing the good roads work continued throughout Minnesota than in a few dollars reduction in the average car tax."

Mr. Babcock's new comment on legislative plans follows:

Auto Taxes—A minimum average of \$18 tax on motor vehicles was agreed to. But it has been below that figure under the new plan and last year the net figure was about \$15.50. The old personal property tax average was nearly \$19. The auto tax average for all states is \$20.35. The present tax is not a burden on owners of high-priced cars. The owner of a light car who cannot afford to pay \$1 a month toward better roads on which to ride, in lieu of all taxes on his car, may practice most effective economy by disposing of his machine and then the highway program will take nothing from him. Public welfare and good business demand that the present taxes be unchanged, regardless of what

Gas Taxes—A minimum average of \$18 tax on motor vehicles was agreed to. But it has been below that figure under the new plan and last year the net figure was about \$15.50. THE BRAINERD DAILY DISPATCH

NATIONAL CONTROL OF MARRIAGE

ALSO DIVORCE CONTEMPLATED BY SENATOR CAPPER'S RESOLUTION

AIMS TO AMEND CONSTITUTION IN THIS RE- GARD

(By United Press)
Washington, Feb. 21.—Congress wants to decide the marriage problem.

Taking cognizance of all the clamor in literature and drama, a movement is underway to allot the subject of marriage and divorce a mention in the constitution of the United States alongside prohibition and suffrage.

The most favored of half a dozen proposals to amend the constitution is one by Senator Capper, Republican, farm bloc leader of Kansas, which provides:

"The congress shall have power to make laws which shall be uniform throughout the United States, on marriage and divorce, the legitimation of children and the care and custody of children affected by annulment of marriage or by divorce."

The resolution now is before the senate judiciary committee. Hearings have been held and it is hoped by adherents of the proposal that it may be reported out before adjournment March 4 terminates the life of the present congress.

Agitation has been widespread for sometime in favor of a uniform divorce law. Capper considers it ridiculous for each state in the union to have different regulations for divorce. In New York and some other states, divorces can be obtained only upon one or two grounds. But in others many grounds exist.

"Divorce has been increasing with an alarming rapidity, until according to the latest statistics there is one divorce to less than every seven marriages in this country," Capper says. "There is only one reason for this—aside from the natural and incontrovertible perversity of human nature—and that is the ease with which the unfit and immature are permitted to marry."

"Divorce as an institution itself is not an evil. In fact since marriage is a partnership which to fulfill its purpose must be conducted in harmony and cooperation, there are times when divorce is an absolute necessity. But it is the abuse of divorce which has become an evil."

"And these two factors—the marriage of the unfit and the abandon with which divorce is granted in some states have contributed to the high divorce rate which, if it continues, will in time disintegrate the family life of the nation."

"We have in this country 49 varieties of marriage laws, those of 48 states and the District of Columbia. There are 48 varieties of divorce laws. One state, South Carolina, does not permit divorce on any ground. Seventeen states fix no marriageable age. In 9 of these common-law ages of 12 for girls and 14 for boys have been formally recognized."

"In two states the marriage age is fixed at 12 for girls and 15 for boys. In one state it is 13 for girls and 14 for boys. In three states it is respectively 14 and 16."

"Although a majority of states prohibit the issuance of a certificate to a minor below the specified age for marriage without consent of the parents, 20 states prescribe no penalty for the official who issues the certificate without the required consent."

"Divorce laws vary even more astoundingly. From no ground in South Carolina to 14 grounds in New Hampshire the scale runs. While the majority of states recognize the divorce laws of other states, there are at least eight which do not recognize them unconditionally. And as the period of residence required before a divorce suit may be brought ranges from 6 months to 3 years we see complications in the court where the defendant in a divorce suit applies to the court of his or her state to set aside a divorce granted to the plaintiff in another state whose laws conflict with the laws of the defendant's state."

"Often those securing divorces in a state outside their own state marry again and have children by their second marriages and returning to their own states are confronted with suits by the divorced wife or husband seeking to annul the divorce. When the suit is successful, this means that the second marriage is fulfilled and the children are illegitimated."

"This is a process without reason and wisdom."

NEW FINISH REPLACES VARNISH

Pyroxylin Enamels For Automobiles
Is New Process Being Adopted
by 10,000 Lakes Garage

Pyroxylin enamels are fast displacing the use of varnish in the automobile world.

This finish is made from a gun cotton base, the cotton first being treated with nitric acid, after which amyl acetate and butyl alcohol are added and the gums and color put in. This mixture is then put in pebble mills and ground for four days.

When the grinding is completed the material is filtered and canned and ready for market.

The applying of this material requires mechanical equipment and expert knowledge of its application.

The 10,000 Lakes Garage has installed complete equipment for handling this material, and now has experts on hand from the Mimax factory to demonstrate and instruct in its application.

The Mimax system of finishing automobiles is one of the greatest steps forward that have been made by the automobile builders in recent years, and measured by years of wear represents a fifty per cent reduction in the cost of keeping a store-new finish on the car.

SENATE FAVORS TURKISH TREATY

COMMITTEE VOTES TO RESTORE RELATIONS BY 8 TO 1 VOTE

(By United Press)
Washington, Feb. 21.—The Lausanne treaty, restoring diplomatic and trade relations between the United States and Turkey, was reported favorably by the senate foreign relations committee today by a vote of 8 to 1. Reservations, practically the same as those in the German treaty, are made.

They provide that the treaty shall be in force for a period of one year but is subject to termination thereafter upon notice of 60 days, and that no question of immigration shall be submitted to administration. Chairman Borah of the committee announced he would call the treaty before the senate next week.

"MA" FERGUSON USES VETO POWER

WOMAN GOVERNOR EXERCISES HER RIGHT FOR THE FIRST TIME

(By United Press)
Austin, Texas, Feb. 21.—Governor Miriam A. Ferguson exercised her veto power for the first time in her administration today when she refused to sign the bill giving free transportation to members of the legislature on Texas railroads. The veto followed an opinion of the attorney-general's office holding that legislators would be entitled to collect constitutional mileage and per diem expenses while riding free upon passes.

JUDGE AND LAWYER STAGE BOUT IN COURT

Chicago, Feb. 21.—Chief Justice Harry Olson of the municipal court was punched in the face today by Edwin Agdrick, representing William D. Shepherd, at the inquest into the death of William McClintock, "millionaire orphan."

A deputy sheriff interfered before Justice Olson could retaliate or Agdrick strike any more blows.

The incident occurred during the questioning of Miss Estelle Gehling, a pretty nurse to whom Shepherd had written endearing letters.

Justice Olson objected to certain questions and Agdrick wheeled and yelled: "You dirty rat."

Then he landed the one blow.

Northwest Angle to Get Road to Outside World

Baudette, Minn., Feb. 21.—Residents of that far-away portion of Lake of the Woods county, the northwest angle, which gained nationwide publicity recently through the Wheeler tragedy, are rejoicing over the news that they are soon to have a road to the outside world. Up to this time their only connection has been the water route on Lake of the Woods. Canadian surveyors are now running the line of the proposed road from Sprague, Man., to Penassee on the angle.

Betty Compson at her Best in Hulbert Footner's Mystery Story

Beautiful and competent, as always, Betty Compson achieves another triumph as the charming occupant of "Ramshackle House," that shows at the Lyceum Theatre Sunday only. This picture which is the screen version of Hulbert Footner's popular novel is a gripping mystery story of a "different" sort.

Pen Broome thought herself buried on the neglected Broome estate in Florida, and indeed she was until

Don Counsell arrived bringing love, and adventure. Pen accepted the latter with a daring that equalled the fervor of the former.

There is an abundance of thrills in this picture. Among them is a rescue from a giant alligator in the treacherous Everglades. This was done by a real Seminole Indian said to be the first one who has ever appeared before a motion picture camera.

The climax of the film is unusual. To tell it would be to spoil the fun.

Lew Cody Makes Thrilling Rescue in Maine Woods

Director Dell Henderson who pictured James Oliver Curwood's greatest story, "Jacqueline," or "Blazing Barriers" for Arrow release—which, by the way, will be shown at the New Park Sunday only—got many a thrill in the making of the big forest fire scene which plays so important a part in the production. It is interesting to note that these scenes were "shot" just at a time when forest fires in the Maine woods were threatening life and property to an alarming extent; so much so, in fact, that the governor of the state closed the hunting season in order to prevent even more serious catastrophes.

Incidentally, these forest fires gave one of the screen's foremost leading men an opportunity of displaying in real life which has so endeared him to patrons of the silent drama in the past. It seems that Director Henderson, assisted by Charles Downs

and Charles Peters, his cameramen, were working away at a particularly engrossing sequence with Lew Cody and Marguerite Courtot, which sequence was played against a blazing background. So interested were they in their work that they failed to notice that the flames had gradually crept around behind them until the little group was a center of a veritable fire ring.

It meant a dash at top speed through a veritable hell of flame, but it was their only way out. And so with a hasty handshake and a quick "Good luck!" they started off. There was a blazing area of some six feet to be traversed, and in the very middle of it Miss Courtot tripped over a protruding root and fell, hitting her head as she did so and stunning herself. The men got through safely only to discover that Miss Courtot was not with them. Without an instant's hesitation, Mr. Cody, scorched and singed as he was, went back into the flames in search of her, to emerge a moment later with her unconscious form in his arms.

"The Empire Builders" at Lyceum Tonight

Rex (Snowy) Baker is appearing at the Lyceum tonight only in "The Empire Builders." He is the same "Snowy" Baker who won the world's applause by capturing the individual honors of the Olympic games, the youthful amateur boxer who was one of the last opponents to face Champion Fitzsimmons, the holder of six world titles in as many different manly sports, known everywhere as the exponent of clean and strenuous living.

As Baker's ancestors were among the first colonists of barbaric New Zealand, it is fitting that he plays his part in a drama of civilization's conquest over savagery. "The Empire Builders," tells a thrilling, dramatic and humorous story of West Africa today.

Hedstrom's Orchestra at the New Park Sunday Night

The popular Hedstrom Orchestra has been engaged to play at the New Park Sunday night.

Women are steadily growing more beautiful, says an eminent English painter. Why not? They've been steadily trying to for several thousand years. — New York Evening World.

England to Celebrate Birthday of Washington

(By United Press)
London, Feb. 21.—Tomorrow, for the first time, a Washington's birthday anniversary will find the ancient English home of the Washingtons permanently endowed.

Thanks to American money and British co-operation, lasting preservation is at last definitely assured for Sulgrave Manor House, the Northampton County residence nearly 400 years ago of Laurence Washington, lineal forbear of the Father of the United States.

February 22 means more to England's Americans and Anglo-Americans this year than ever before, because Sulgrave's permanent endowment has been completed during the twelve months ended today. It consists of \$100,000 raised by the National Society of Colonial Dames in America through subscriptions of more than 50,000 residents of the United States. An appeal for the fund was issued by the society late in 1923, and one-half of it had already been raised by Washington's birthday last year.

While this contribution assures uninterrupted maintenance of the Manor, officials of the Sulgrave Institution estimate that at least another \$100,000 is necessary to complete the restoration of the building and premises which was commenced several years ago. This work has been temporarily suspended for a year owing to lack of funds.

It is aimed to maintain the original style of the building as it was in Laurence Washington's time, and to surround it with appropriate gardens and grounds. A large portion of the Jacobean section has not yet been completely restored.

A record-breaking number of American pilgrims visited the Manor during 1923, but last year's list was even greater. Although figures are not available, officials report an ever-increasing interest on the part of tourists.

One great drawback for prospective pilgrims hitherto has been the inaccessibility of the place by railway. Sulgrave is from six to nine miles off the main railway lines of the district, necessitating a motor trip from either Banbury or Brackley stations, at least, through tortuous country roads. The village is about fifty-five miles northwest of London.

Efforts are now under way to have a branch railway line put in with a station at Sulgrave.

Commemoration of tomorrow's anniversary will consist principally of a birthday celebration held under the auspices of the English-speaking Union.

\$45,000 Asked to Control Water Level of Lake

The senate today received a bill appropriating \$45,000 to the game and fish department to buy land at Lake Shetek to control the water level of the lake.

The measure was proposed by Sen. L. P. Johnson.

About the only strange belief man hasn't outgrown is the one that he is a wonder.—Associated Editors, Chicago.

EXTORTION CHARGE IN THE STOKES CASE

POLICE ARREST CORBET ON A CHARGE OF DEMANDING \$200; BELIEVED INSANE

(By United Press)

Chicago, Feb. 21.—Robert L. Corbet, 56, Chicago, was arrested today on a charge of attempting to extort \$200 from Mrs. Helen Elwood Stokes who charged her husband with conspiring to defame her character.

When the man approached her with a threat to expose her as Cora Stewart who was involved in a questionable affair some years ago, Mrs. Stokes told him to see her attorney, Roy West. When West turned the money over to Corbet two detectives in hiding stepped out and made the arrest.

Police believe the man is insane.

Suits with two pairs of trousers are in demand. We wish they would throw in an extra coat and vest too.—Columbia Record.

NATIONAL CONTROL OF MARRIAGE

ALSO DIVORCE CONTEMPLATED BY SENATOR CAPPER'S RESOLUTION

AIMS TO AMEND CONSTITUTION IN THIS RE- GARD

(By United Press)
Washington, Feb. 21.—Congress wants to decide the marriage problem.

Taking cognizance of all the clamor in literature and drama, a movement is underway to allot the subject of marriage and divorce a mention in the constitution of the United States alongside prohibition and suffrage.

The most favored of half a dozen proposals to amend the constitution is one by Senator Capper, Republican, farm bloc leader of Kansas, which provides:

"The congress shall have power to make laws which shall be uniform throughout the United States, on marriage and divorce, the legitimation of children and the care and custody of children affected by annulment of marriage or by divorce."

The resolution now is before the senate judiciary committee. Hearings have been held and it is hoped by adherents of the proposal that it may be reported out before adjournment March 4 terminates the life of the present congress.

Agitation has been widespread for some time in favor of a uniform divorce law. Capper considers it ridiculous for each state in the union to have different regulations for divorce. In New York and some other states, divorces can be obtained only upon one or two grounds. But in others many grounds exist.

"Divorce has been increasing with an alarming rapidity, until according to the latest statistics there is one divorce to less than every seven marriages in this country," Capper says. "There is only one reason for this—aside from the natural and incontrovertible perversity of human nature—and that is the ease with which the unfit and immature are permitted to marry."

"Divorce as an institution itself is not an evil. In fact since marriage is a partnership which to fulfill its purpose must be conducted in harmony and cooperation, there are times when divorce is an absolute necessity. But it is the abuse of divorce which has become an evil."

"And these two factors—the marriage of the unfit and the abandon with which divorce is granted in some states have contributed to the high divorce rate which, if it continues, will in time disintegrate the family life of the nation."

"We have in this country 49 varieties of marriage laws, those of 48 states and the District of Columbia. There are 48 varieties of divorce laws. One state, South Carolina, does not permit divorce on any ground. Seventeen states fix no marriageable age. In 9 of these common-law ages of 12 for girls and 14 for boys have been formally recognized."

"In two states the marriage age is fixed at 12 for girls and 15 for boys. In one state it is 13 for girls and 14 for boys. In three states it is respectively 14 and 16."

"Although a majority of states prohibit the issuance of a certificate to a minor below the specified age for marriage without consent of the parents, 20 states prescribe no penalty for the official who issues the certificate without the required consent."

"Divorce laws vary even more astoundingly. From no ground in South Carolina to 14 grounds in New Hampshire the scale runs. While the majority of states recognize the divorce laws of other states, there are at least eight which do not recognize them unconditionally. And as the period of residence required before a divorce suit may be brought ranges from 6 months to 3 years we see complications in the court where the defendant in a divorce suit applies to the court of his or her state to set aside a divorce granted to the plaintiff in another state whose laws conflict with the laws of the defendant's state."

"Often those securing divorces in a state outside their own state marry again and have children by their second marriages and returning to their own states are confronted with suits by the divorced wife or husband seeking to annul the divorce. When the suit is successful, this means that the second marriage is fulfilled and the children are illegitimated."

"This is a process without reason and wisdom."

LOST AND FOUND—CALL 74

NEW FINISH REPLACES VARNISH

Pyroxylin Enamels For Automobiles Is New Process Being Adopted by 10,000 Lakes Garage

Pyroxylin enamels are fast displacing the use of varnish in the automobile world.

This finish is made from a gun cotton base, the cotton first being treated with nitric acid, after which acetate and budel alcohol are added and the gums and color put in. This mixture is then put in pebble mills and ground for four days.

When the grinding is completed the material is filtered and canned and ready for market.

The applying of this material requires mechanical equipment and expert knowledge of its application.

The 10,000 Lakes Garage has installed complete equipment for handling this material, and now has experts on hand from the Mimax Factory to demonstrate and instruct in its application.

The Mimax system of finishing automobiles is one of the greatest steps forward that have been made by the automobile builders in recent years, and measured by years of wear represents a fifty per cent reduction in the cost of keeping a store-new finish on the car.

SENATE FAVORS TURKISH TREATY

COMMITTEE VOTES TO RESTORE RELATIONS BY 8 TO 1 VOTE

(By United Press)
Washington, Feb. 21.—The Lausanne treaty, restoring diplomatic and trade relations between the United States and Turkey, was reported favorably by the senate foreign relations committee today by a vote of 8 to 1. Reservations, practically the same as those in the German treaty, are made.

They provide that the treaty shall be in force for a period of one year but is subject to termination thereafter upon notice of 60 days, and that no question of immigration shall be submitted to administration. Chairman Borah of the committee announced he would call the treaty before the senate next week.

"MA" FERGUSON USES VETO POWER

WOMAN GOVERNOR EXERCISES HER RIGHT FOR THE FIRST TIME

(By United Press)
Austin, Texas, Feb. 21.—Governor Miriam A. Ferguson exercised her veto power for the first time in her administration today when she refused to sign the bill giving free transportation to members of the legislature on Texas railroads. The veto followed an opinion of the attorney-general's office holding that legislators would be entitled to collect constitutional mileage and per diem expenses while riding free upon passes.

JUDGE AND LAWYER STAGE BOUT IN COURT

Chicago, Feb. 21.—Chief Justice Harry Olson of the municipal court was punched in the face today by Edwin Agdrick, representing William D. Shepherd, at the inquest into the death of William McClintock, "millionaire orphan."

A deputy sheriff interfered before Justice Olson could retaliate or Agdrick strike any more blows.

The incident occurred during the questioning of Miss Estelle Gehling, a pretty nurse to whom Shepherd had written endearing letters.

Justice Olson objected to certain questions and Agdrick wheeled and yelled: "You dirty rat."

Then he landed the one blow.

Northwest Angle to Get Road to Outside World

Baudette, Minn., Feb. 21.—Residents of that far-away portion of Lake of the Woods county, the northwest angle, which gained nationwide publicity recently through the Wheeler tragedy, are rejoicing over the news that they are soon to have a road to the outside world. Up to this time their only connection has been the water route on Lake of the Woods. Canadian surveyors are now running the line of the proposed road from Sprague, Man., to Penassee on the angle.

LOST AND FOUND—CALL 74

Betty Compson at her Best in Hulbert Footner's Mystery Story Beautiful and competent, as always, Betty Compson achieves another triumph as the charming occupant of "Ramshackle House," that shows at the Lyceum Theatre Sunday only. This picture which is the screen version of Hulbert Footner's popular novel is a gripping mystery story of a "different" sort.

Pen Broome thought herself buried on the neglected Broome estate in Florida, and indeed she was until

Don Counsell arrived bringing love, and adventure. Pen accepted the latter with a daring that equalled the fervor of the former.

There is an abundance of thrills in this picture. Among them is a rescue from a giant alligator in the treacherous Everglades. This was done by a real Seminole Indian said to be the first one who has ever appeared before a motion picture camera.

The climax of the film is unusual. To tell it would be to spoil the fun.

Low Cody Makes Thrilling Rescue in Maine Woods

DE MOLAY ORDER TO START FEB. 28

Roosevelt Chapter to be Instituted
With Proper Ceremonies Next
Saturday Night

WORK BY DULUTH OFFICERS

Initiation of Local Charter Members,
Installation and Banquet a
Part of Program

"Roosevelt" Chapter, of Brainerd, order of DeMolay, will be instituted with proper ceremonies on next Saturday evening, February 28th, in the Masonic hall, according to latest advice received from J. E. Meyers, state deputy, of Minneapolis.

Between forty and fifty local boys have made application and will receive the DeMolay degrees as charter members at this time. A keen interest in the order has been exhibited by the youth of the city, and it is expected that many others will make application for initiation at a later date in the season.

The officers of the Duluth chapter, about 35 boys, will exemplify the initiatory work on Saturday evening. This degree team is said to be among the best in the state, and it puts on the work in a very impressive manner. The paraphernalia and chanters from the Duluth lodge will be used.

The program of the day will start with a banquet, served at six o'clock in the Masonic parlors by the ladies of the Eastern Star. This banquet is to be for the local candidates, the Duluth visitors, and the advisory council only. It is expected that there will be about 90 seated, in all.

The initiatory work will follow immediately after the banquet and will be the principal event of the day. The complete work in the two degrees will be exemplified upon the Brainerd charter members.

Following the initiation the charter for the new chapter will be presented by Mr. Meyer, and the new officers installed. The new chapter will then be considered a going institution, and is expected to do a constructive work in this community among the boys.

Officers of Masonic lodges in the Brainerd district and members of Aurora Lodge No. 100 will be invited to witness the ceremonies Saturday evening, and the local forest, Tall Cedars of Lebanon will be asked to furnish light refreshments at the close of the initiation.

BEST TALENT AT LEAGUE MEETING

Third Ward Flapper, Sheik Band and Male Quartet at N. E. Improvement League Program

LOWELL SCHOOL MONDAY NIGHT
Six of Sweetest Old Maids and Six Eligible Bachelors to Debate Age-Old Question

The Northeast Brainerd Improvement League will hold its regular meeting, Tuesday February 24, in the Lowell school, at 8 P. M.

The short business session will be preceded by a program of one hour.

Some of the 3rd ward's best talent will appear in this program, six of the sweetest old maids in N. E. Brainerd will tell why they are single, and they will be answered in turn by six eligible bachelors.

The Third Ward Flapper and Sheik Band will play and the League's Male Quartet will sing. The program in full will appear in Monday's Dispatch.

Visitors from other wards are welcome and East Brainerd people should attend the Firemen's show Monday and have Tuesday evening free to attend the League. Help boost your own ward.

USE BURMA VITA ON THE OLD RHEUMATIC PAIN

Give the lame spot a good thorough rubbing with Burma Vita. Then apply bath towel wrung out of hot water. Burma Vita is powerful, penetrating, delightful. The moist heat vaporizes Burma Vita and drives it deep down to the seat of the trouble. Instant and wonderful relief follows. Over eighteen thousand bottles of Burma Vita sold in the City of Minneapolis alone, since July 1st—used and recommended by leading athletic clubs, sanatoriums and prominent physicians—Burma Vita is far superior to greasy liniments. Use a bottle and you will never be without it again—it has many uses. Every druggist in Brainerd has Burma Vita.

HEDSTROM ORCHESTRA

Will Play Sunday Evening at New Park Theatre, as an Added Attraction to Theatre Program

The popular Hedstrom orchestra has been engaged to play at the New Park Sunday night as an added attraction. This orchestra has made a decided hit in Brainerd playing a great many dances and recently playing on Brainerd Night at WCCO, Minneapolis. The management of the New Park firmly believes that they will make a hit on Sunday evening as the orchestra has arranged an exceptionally fine program for this engagement.

The "special" picture for Sunday night will be "Jacqueline" or "Blazing Barriers" by James Oliver Curwood with Margaret Courtot, Low Cody and a number of other famous stars. All of James Oliver Curwood's stories have made splendid pictures and "Jacqueline" is said to be one of his best. A two reel comedy "Rough and Ready" will also be shown.

This big bill will be presented at regular prices and those who appreciate the best in pictures and good music should make it a point to attend the New Park Sunday night.

CITY WILL FACE FOUR LAW SUITS

Damage Cases Involving a Total of \$38,575 Against City of Brainerd Pending

MAY TERM DISTRICT COURT

These Include Two Personal Injury, One Death And One Injury to Property Cases

Four suits now pending, against the city of Brainerd, involve a total of \$38,575 claimed from the city. These cases will all be heard at the May term of court.

A claim for \$30,300 is made by Mrs. Elizabeth E. Crowell, for injuries sustained on Feb. 19th, 1924, when she fell on a slippery sidewalk at the corner of Sixth and Front streets. The claim is that the sidewalk is not at proper grade, and that snow and ice accumulated causing her to fall, breaking the neck of the femur of her right hip. With the city of Brainerd as defendants is R. R. Wise. City Attorney Fullerton will represent the city, and A. D. Polk will represent Mr. Wise. The attorneys for Mrs. Crowell are T. L. O'Hearn of Minneapolis and W. H. Crowell and J. H. Warner of Brainerd.

Another sidewalk case is that of Evelyn Fay against the city, for injuries sustained December 30th, 1924, when she slipped and fell on a sidewalk in front of the Inggrund garage. The claim is for \$500. Swanson and Swanson will represent the plaintiff.

M. E. and C. A. Ryan, representing Mrs. Mary Stillings, are seeking damages to the extent of \$275, for damages caused by the failure of the sewer overflow to carry off the water at Kingwood and Fifth streets, allowing the water to damage the property of Mrs. Stillings.

The fourth suit against the city is that of Walter F. Schweindeman, claiming that the city is liable for the death of his wife, on August 31st, 1924, at the Northwestern hospital. While Mrs. Schweindeman was on the operating table, the electric light was shut off without warning, and the operation had to be suspended for some time. The amount asked for is \$7500. Jesse Van Valkenburg of Minneapolis, is representing the plaintiff.

War on Improper Literature

The probability that the Boy Scouts of America will enter the war on improper literature was indicated by Mr. Franklin K. Matthews in addressing the scout leaders of Region Three. Mr. Matthews charged that there are at least 30 questionable magazines in circulation and urged that District Attorneys and legislatures be asked to take steps to curb the flow of improper literature.

Energizer is true gasoline, not dop. Next in grade to the highest test aviation gasoline. 125ct

When Mr. Voliva claims the world is flat, it is barely possible he has merely been studying the recent European debt discussion.—Detroit News.

MISS ANTONIA HIEBEL DIED

Succumbed Suddenly to Heart Disease While in Minneapolis

Miss Antonia Catherine Hiebel, of Brainerd, passed away suddenly on last Monday morning in Minneapolis, death resulting from heart trouble.

The deceased was born in Alexandria in 1899. She later lived in Bertha, and came from that village to Brainerd with her parents about three years ago.

She leaves to mourn her loss her father, Jacob Hiebel and three sisters, Miss Barbara, of Brainerd, Mrs. Mary Moran, of Minneapolis and Mrs. Henry Etrich, of Ironton.

Funeral services were held from the Pro-cathedral, Minneapolis, on Wednesday morning at 10 o'clock, and interment made in one of the Catholic cemeteries of that city.

COURSE OUTLINED FOR LEAGUE STUDY

Will Take up Prevention of War and World Court Controversy at Meetings During Lent

PUBLIC MEETING MARCH 3RD

World Peace and the World Court to be Discussed, Boys Band to Furnish the Music

At a meeting of the Board of the League of Women Voters at the home of Mrs. A. M. Opsahl, it was decided to take up, during Lent, a course of study prepared by the state Chairman of International Co-operation to Prevent War. This course will give one an intelligent understanding of the World Court controversy. It begins with the Monroe Doctrine, in order to get the historical background, and proceeds to give both the economic and the political angles of our foreign policy, including the Dawes Plan and the Geneva Protocol.

In order to give every member of the League an opportunity to enroll in this course, it was decided to hold a public meeting with an inspirational talk on World Peace and a detailed discussion of the World Court with the Harding-Hughes and the Borah reservations.

This meeting will be held in the Chamber of Commerce parlors on Tuesday evening, March third. The inspirational talk on World Peace and How to Secure It will be given by Rev. Walter Remmes. The discussion of the World Court as a means to that end will be given by Judge Walter Wieland. There will also be music by the Boys Band, this being their first public appearance under their new leader, E. A. Page.

The local chairman of International Co-operation to Prevent War, Miss Genevieve Flannagan, will preside at this meeting, at which opportunity will be given for questions and discussion. Miss Flannagan will also arrange for leaders in the intensive course of study. A more detailed announcement regarding this course will be made later. This is simply to remind all those interested to save Inaugural Eve, March 3rd for this meeting. All those whose memberships expire in February are asked to renew before enrolling in this course.

LOUIS STALLMAN

PASSED AWAY

Death Came to Pioneer Barber Friday Evening After Nearly a Year of Ill Health

FUNERAL MONDAY AFTERNOON

Deceased Was Closely Identified With Growth of City, and Interested in Civic Affairs

Louis Stallman, an old resident of Brainerd, and one of the pioneer barbers of the city, passed away at 8:15 o'clock Friday evening at a local hospital, death resulting from complications. Mr. Stallman had been in ill health for nearly a year, following an attack of influenza early last spring.

He was born in Gettysburg, Ohio, July 30th, 1830, and came to Brainerd in 1881, when he reached his majority. He has made his home in this city ever since.

On December 12th, 1882 Mr. Stallman was united in marriage to Miss Georgina Dickson. Eight children were born to this union, one of whom died in infancy. Four sons and three daughters are living, being Charles Edward, Frederick Raymond and Wallace Byron, of Brainerd, and Eugene Louis, of Minneapolis. Miss Ruby Stallman, of Brainerd, Mrs. Irene Fields, of Elkhart, Indiana and Mrs. Elsie Reilly, of Two Harbors. There are six grandchildren.

In addition to his wife and children, Mr. Stallman is survived by two sisters, Miss Margaret Stallman, of St. Cloud, and Mrs. E. C. Draper, of Omaha, Nebraska, and three brothers, Edward, Charles and George, of Ohio.

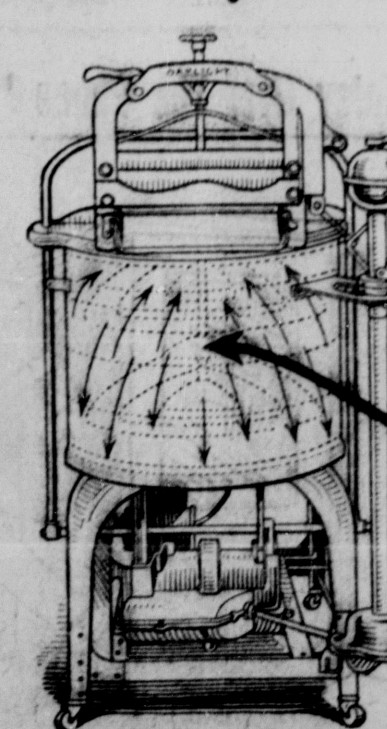

Mr. Stallman has been closely associated with the growth and improvement of Brainerd, and has always been much interested in civic affairs. He served on the board of county commissioners for several years, and for two terms served the city as alderman from the Fifth ward. He was also chief of the Brainerd fire department for a number of years and president of the state firemen's association at the time the state convention was held in this city. His only fraternal connections were with the United Workman, to which order he had belonged for many years.

The body will lie in state at the B. C. McNamara chapel, where it may be viewed by friends until 11 o'clock Monday morning. It will then be taken to the Stallman home, 505 South 9th street, where short services will be held at two o'clock Monday afternoon, followed by the funeral at 2:30 o'clock at St. Paul's Episcopal church, Rev. W. M. Walton, officiating. Interment will be made in Evergreen cemetery.

The sorrowing family has the sincere sympathy of the entire community in its sad bereavement.

DE MOLAY ORDER TO START FEB. 28

Roosevelt Chapter to be Instituted
With Proper Ceremonies Next
Saturday Night

WORK BY DULUTH OFFICERS

Initiation of Local Charter Members,
Installation and Banquet a
Part of Program

"Roosevelt" Chapter, of Brainerd, order of DeMolay, will be instituted with proper ceremonies on next Saturday evening, February 28th, in the Masonic hall, according to latest advice received from J. E. Meyers, state deputy, of Minneapolis.

Between forty and fifty local boys have made application and will receive the DeMolay degrees as charter members at this time. A keen interest in the order has been exhibited by the youth of the city, and it is expected that many others will make application for initiation at a later date in the season.

The officers of the Duluth chapter, about 35 boys, will exemplify the initiatory work on Saturday evening. This degree team is said to be among the best in the state, and it puts on the work in a very impressive manner. The paraphernalia and chanters from the Duluth lodge will be used.

The program of the day will start with a banquet, served at six o'clock in the Masonic parlors by the ladies of the Eastern Star. This banquet is to be for the local candidates, the Duluth visitors, and the advisory council only. It is expected that there will be about 90 seated, in all.

The initiatory work will follow immediately after the banquet and will be the principal event of the day. The complete work in the two degrees will be exemplified upon the Brainerd charter members.

Following the initiation the charter for the new chapter will be presented by Mr. Meyer, and the new officers installed. The new chapter will then be considered a going institution, and is expected to do a constructive work in this community among the boys.

Officers of Masonic lodges in the Brainerd district and members of Aurora Lodge No. 100 will be invited to witness the ceremonies Saturday evening, and the local forest, Tall Cedars of Lebanon will be asked to furnish light refreshments at the close of the initiation.

BEST TALENT AT LEAGUE MEETING

Third Ward Flapper, Sheik Band and
Male Quartet at N. E. Improvement
League Program

LOWELL SCHOOL MONDAY NIGHT

Six of Sweetest Old Maids and Six
Eligible Bachelors to Debate
Age-Old Question

The Northeast Brainerd Improvement League will hold its regular meeting, Tuesday February 24, in the Lowell school, at 8 P. M.

The short business session will be preceded by a program of one hour.

Some of the 3rd ward's best talent will appear in this program, six of the sweetest old maids in N. E. Brainerd will tell why they are single, and they will be answered in turn by six eligible bachelors.

The Third Ward Flapper and Sheik Band will play and the League's Male Quartet will sing. The program in full will appear in Monday's Dispatch.

Visitors from other wards are welcome and East Brainerd people should attend the Firemen's show Monday and have Tuesday evening free to attend the League. Help boost your own ward.

USE BURMA VITA ON THE OLD RHEUMATIC PAIN

Give the lame spot a good thorough rubbing with Burma Vita. Then apply bath towel wrung out of hot water. Burma Vita is powerful, penetrating, delightful. The moist heat vaporizes Burma Vita and drives it deep down to the seat of the trouble. Instant and wonderful relief follows. Over eighteen thousand bottles of Burma Vita sold in the City of Minneapolis alone, since July 1st—used and recommended by leading athletic clubs, sanatoriums and prominent physicians—Burma Vita is far superior to greasy liniments. Use a bottle and you will never be without it again—it has many uses. Every drugist in Brainerd has Burma Vita, 50c.—Adv.

HEDSTROM ORCHESTRA

Will Play Sunday Evening at New
Park Theatre, as an Added Attraction to Theatre Program

The popular Hedstrom orchestra has been engaged to play at the New Park Sunday night as an added attraction. This orchestra has made a decided hit in Brainerd playing a great many dances, and recently playing on Brainerd Night at WCCO, Minneapolis. The management of the New Park firmly believes that they will make a hit on Sunday evening as the orchestra has arranged an exceptionally fine program for this engagement.

The "special" picture for Sunday night will be "Jacqueline" or "Blazing Barriers" by James Oliver Curwood with Margaret Courtot, Low Cody and a number of other famous stars. All of James Oliver Curwood's stories have made splendid pictures and "Jacqueline" is said to be one of his best. A two reel comedy "Rough and Ready" will also be shown.

This big bill will be presented at regular prices and those who appreciate the best in pictures and good music should make it a point to attend the New Park Sunday night.

CITY WILL FACE FOUR LAW SUITS

Damage Cases Involving a Total of
\$38,575 Against City of
Brainerd Pending

MAY TERM DISTRICT COURT

These Include Two Personal Injury,
One Death And One Injury
to Property Cases

Four suits now pending, against the city of Brainerd, involve a total of \$38,575 claimed from the city. These cases will all be heard at the May term of court.

A claim for \$30,300 is made by Mrs. Elizabeth E. Crowell, for injuries sustained on Feb. 19th, 1924, when she fell on a slippery sidewalk at the corner of Sixth and Front streets. The claim is that the sidewalk is not at proper grade, and that snow and ice accumulated causing her to fall, breaking the neck of the femur of her right hip. With the city of Brainerd as defendants is R. R. Wise. City Attorney Fullerton will represent the city, and A. D. Polk will represent Mr. Wise. The attorneys for Mrs. Crowell are T. L. O'Hearn of Minneapolis and W. H. Crowell and J. H. Warner of Brainerd.

Another sidewalk case is that of Evelyn Fay against the city, for injuries sustained December 30th, 1924, when she slipped and fell on a sidewalk in front of the Ingund garage. The claim is for \$500. Swanson and Swanson will represent the plaintiff.

M. E. and C. A. Ryan, representing Mrs. Mary Stillings, are seeking damages to the extent of \$275, for damages caused by the failure of the sewer overflow to carry off the water at Kingwood and Fifth streets, allowing the water to damage the property of Mrs. Stillings.

The fourth suit against the city is that of Walter F. Schwendeman, claiming that the city is liable for the death of his wife, on August 31st, 1924, at the Northwestern hospital. While Mrs. Schwendeman was on the operating table, the electric light was shut off without warning, and the operation had to be suspended for some time. The amount asked for is \$7500. Jesse Van Valkenburg of Minneapolis, is representing the plaintiff.

War on Improper Literature

The probability that the Boy Scouts of America will enter the war on improper literature was indicated by Mr. Franklin K. Matthews in addressing the scout leaders of Region Three. Mr. Matthews charged that there are at least 30 questionable magazines in circulation and urged that District Attorneys and legislatures be asked to take steps to curb the flow of improper literature.

Energy is true gasoline, not dope. Next in grade to the highest aviation gasoline.

When Mr. Voliva claims the world is flat, it is barely possible he has merely been studying the recent European debt discussion.—Detroit News.

MISS ANTONIA HIEBEL DIED

Succumbed Suddenly to Heart Disease While in Minneapolis

Miss Antonia Catherine Hiebel, of Brainerd, passed away suddenly on last Monday morning in Minneapolis, death resulting from heart trouble.

The deceased was born in Alexandria in 1899. She later lived in Bertha, and came from that village to Brainerd with her parents about three years ago.

She leaves to mourn her loss her father, Jacob Hiebel and three sisters, Miss Barbara, of Brainerd, Mrs. Mary Moran, of Minneapolis and Mrs. Henry Etrich, of Ironton.

Funeral services were held from the Pro-cathedral, Minneapolis, on Wednesday morning at 10 o'clock, and interment made in one of the Catholic cemeteries of that city.

COURSE OUTLINED FOR LEAGUE STUDY

Will Take up Prevention of War and
World Court Controversy at
Meetings During Lent

PUBLIC MEETING MARCH 3RD

World Peace and the World Court
to be Discussed, Boys Band to
Furnish the Music

At a meeting of the Board of the League of Women Voters at the home of Mrs. A. M. Opsahl, it was decided to take up, during Lent, a course of study prepared by the state Chairman of International Co-operation to Prevent War. This course will give one an intelligent understanding of the World Court controversy. It begins with the Monroe Doctrine, in order to get the historical background, and proceeds to give both the economic and the political angles of our foreign policy, including the Dawes Plan and the Geneva Protocol.

In order to give every member of the League an opportunity to enroll in this course, it was decided to hold a public meeting with an inspirational talk on World Peace and a detailed discussion of the World Court with the Harding-Hughes and the Borah reservations.

This meeting will be held in the Chamber of Commerce parlors on Tuesday evening, March third. The inspirational talk on World Peace and How to Secure It will be given by Rev. Walter Rønnes. The discussion of the World Court as a means to that end will be given by Judge Walter Wieland. There will also be music by the Boys Band, this being their first public appearance under their new leader, E. A. Page.

The local chairman of International Co-operation to Prevent War, Miss Genevieve Flannagan, will preside at this meeting, at which opportunity will be given for questions and discussion. Miss Flannagan will also arrange for leaders in the intensive course of study. A more detailed announcement regarding this course will be made later. This is simply to remind all those interested to save Inaugural Eve, March 3rd for this meeting. All those whose memberships expire in February are asked to renew before enrolling in this course.

LOUIS STALLMAN

PASSED AWAY

Death Came to Pioneer Barber Friday Evening After Nearly a Year of Ill Health

FUNERAL MONDAY AFTERNOON

Deceased Was Closely Identified With
Growth of City, and Interested
in Civic Affairs

Louis Stallman, an old resident of Brainerd, and one of the pioneer barbers of the city, passed away at 8:15 o'clock Friday evening at a local hospital, death resulting from complications. Mr. Stallman had been in ill health for nearly a year, following an attack of influenza early last spring.

He was born in Gettysburg, Ohio, July 30th, 1850, and came to Brainerd in 1881, when he reached his majority. He has made his home in this city ever since.

On December 12th, 1882 Mr. Stallman was united in marriage to Miss Georgina Erickson. Eight children were born to this union, one of whom died in infancy. Four sons and three daughters are living, being Charles Edward, Frederick Raymond and Wallace Byron, of Brainerd, and Eugene Louis, of Minneapolis, Miss Ruby Stallman, of Brainerd, Mrs. Irene Fields, of Elkhart, Indiana and Mrs. Elsie Reilly, of Two Harbors. There are six grandchildren.

In addition to his wife and children, Mr. Stallman is survived by two sisters, Miss Margaret Stallman, of St. Cloud, and Mrs. E. C. Draper, of Omaha, Nebraska, and three brothers, Edward, Charles and George, of Ohio.

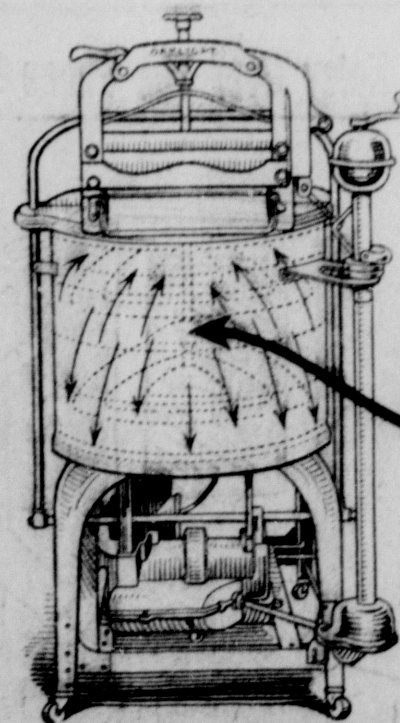

Mr. Stallman has been closely associated with the growth and improvement of Brainerd, and has always been much interested in civic affairs. He served on the board of county commissioners for several years, and for two terms served the city as alderman from the Fifth ward. He was also chief of the Brainerd fire department for a number of years and president of the state firemen's association at the time the state convention was held in this city. His only fraternal connections were with the United Workman, to which order he had belonged for many years.

The body will lie in state at the B. C. McNamara chapel, where it may be viewed by friends until 11 o'clock Monday morning. It will then be taken to the Stallman home, 595 South 9th street, where short services will be held at two o'clock Monday afternoon, followed by the funeral at 2:30 o'clock at St. Paul's Episcopal church. Rev. W. M. Walton, officiating. Interment will be made in Evergreen cemetery.

The sorrowing family has the sincere sympathy of the entire community in its sad bereavement.

FARRELL SAYS MANDELL IS A REAL CHAMP

By HENRY L. FARRELL,
(United Press Sports Editor)

New York, Feb. 21.—No title was at stake officially when Sammy Mandell and Sid Terris met recently in New York, but Mandell, as the winner, was generally accepted as being the logical successor to Benny Leonard as the world's lightweight champion. There is only one way his claim to the championship can be disputed and that is by inviting him to fight it out.

Mandell and Terris were admitted to be the class of the contenders that were listed by the New York Boxing Commission to compete in the elimination tournament that was planned as the means of finding Leonard's successor.

Mandell, Terris and Johnny Dundee, former featherweight champion, pulled out of the tournament, however, and they took with them most of the prestige that the commission hoped the winner of the tournament would gain.

Both Mandell and Terris were willing to compete in the tournament, but the commission wouldn't make a minor concession they asked. The managers of the two boxers asked in view of the fact that they were meeting before the tournament started that the winner be given a bye through the first round and that the loser be allowed to enter the first round. The commission would not consent to this arrangement and the two boxers declined to enter.

Dundee pulled out because he couldn't get into condition to fight for four months. This alibi cast some interesting angles on his hasty departure from Paris where he had been booked to meet Fred Bretonnel. Dundee said when he returned to this country that he came back to see a sick brother-in-law.

Mandell is a legitimate lightweight. Many of the boxers picked by the commission as contenders for the title will have great difficulty in making 135 pounds. Mandell is a good boxer, a fast worker and a promising puncher. He is not a killer yet, but he is a mere youngster and he ought to grow into a punch. It will be recalled that Leonard was not a great hitter at a corresponding stage of his career.

It is great fighting heart and a natural inclination to fight that are Mandell's most promising assets. He beat Terris because he had a stouter heart and was aroused to his most desperate fighting when he was hurt.

RADIOLAS GO TO PINE RIVER TODAY

EXPECT THAT A HARD FOUGHT
BATTLE WILL RE-
SULT

The Brainerd Radiola basketball team goes to Pine River today to play the city team of that city. A good fast game is anticipated, and the local boys hope to bring home the bacon.

This will be the Radiola's second trip to Pine River this season. In the first part of the season the Radiolas played the Pine River high school team, defeating them by a score of 16-14 in an extra five-minute period.

The Radiolas have enrolled for the Minnesota State Amateur Basketball tournament. The purpose of this tournament is that an independent championship team may be determined in a championship way. The state has been divided into sixteen districts. The tournament for this district will be held at Hackensack, with teams from Crow Wing, Wadena, Hubbard and Cass counties participating. The district meet is composed of practically ten or twelve teams, and the winners of the district meet, held at Hackensack on March 13 and 14, go to New Ulm, meeting the other district winners, March 20 and 21.

The Brainerd Radiolas are planning to secure the funds necessary for the Hackensack trip by giving an all day luncheon at the Jule block, corner 7th and Laurel streets, on Friday, Feb. 27th. This being pay day, store clerks and others will have an opportunity to get a good luncheon at any time during the day.

Air Pumped Under Ice of Three Minnesota Lakes to Save Lives of Game Fish

Jackson, Minn., Feb. 21.—Men are pumping air under the ice in Loon, Clear and Pearl lakes in an effort to save the game fish which are dying by the hundreds daily for lack of oxygen. The three lakes are frozen over solid. The work of giving the fish air was arranged by the Jackson County Game Protective league. These lakes were sealed of rough fish two years ago and the seiners put back in the water large numbers of game fish at that time.

AITKIN DEFEATS BRAINERD 14-12 IN OVERTIME TILT

SLOW IN FIRST HALF, THE GAME
PROVES LIVELY AT THE
FINISH

ROSENBERG SHINES OUT AS NEW
STAR IN LOCAL
QUINT

Aitkin beat Brainerd last night in a game that started as a listless affair from the spectators' point of view, but which provided all the thrills necessary for a great game before the end of the contest. The score was 14-12, but the score does not tell all the battle. One overtime period was needed to determine the winner.

Aitkin scored five points before the Brainerd players got their eye on the basket. Then with the beginning of the second period, with the score 5-0, Opsahl made the first point for Brainerd on a free throw. During the rest of the quarter the game was nip and tuck, with many long shots attempted. With fifteen seconds of play left of the first half, Captain Engbretson came through with a neat basket, followed by a long basket by Rosenberg as the whistle blew for the half, with the score tied.

Until the third quarter, Aitkin kept the lead. At the start of this period, Engbretson put Brainerd in the lead for the first time when he scored a free throw, bringing the score to 6-5. From then on the lead changed hands, until Brainerd with hard fighting brought the score to 11-9. A foul was called on Tribur in the closing minute, and Holden made good on both attempts, tying the score, as the game ended.

In the overtime period, Kast made a clean goal from mid-floor, enough to give Aitkin the victory. For Aitkin, Holden was the center of the attack, playing a good floor game. Geer, center, also starred. Engbretson was the star for Brainerd, all over the floor and playing a wonderful game. Rosenberg played his best game of the season, one of the scrappiest fights put up by any Brainerd player this year. To these two men go the greatest credit for the hard game given Aitkin. Several times Rosenberg brought the crowd to its feet by his remarkable playing.

Aitkin showed its mettle in this comeback from the game at Brainerd when Brainerd won, 19-13. Their defense was impenetrable, Kast especially holding the Brainerd forwards to a minimum of short shots. Dick Lewis, former University of Minnesota star, refereed the game, in excellent manner.

First Quarter: Several long shots were attempted by both sides, with no success. Davis missed a free throw. Geer took a perfect pass from Holden, and made the goal from under the basket, with Tribur right on his trail. Holden made good on one of two free throws. Hanson made a long shot; Brainerd took time out. The crowd was in an uproar. Quarter ended, score 5-0.

Second Quarter: Opsahl made a free throw. Both sides resorted to long shots. On fouls by Rosenberg and Dieckhaus, Aitkin missed both tries. With the period ending, Engbretson slipped through for a basket, followed a few seconds later by Rosenberg in a long shot, tying the score at 5-5 as the quarter ended.

Third Quarter: Holden fouled, and Rosenberg missed both shots. Poul called on Opsahl for blocking. Geer missed the attempt. Engbretson put Brainerd in the lead for the first time when he made good on a free throw. On a long pass to Opsahl, a perfect chance for a clear basket was thrown away when Op-

sahl missed the short shot. Hanson fouled Dieckhaus, and on the first try Dieckhaus made the basket, but was over the line and the point was not allowed. He missed the second trial. Geer missed both attempts on a multiple foul. Holden missed a free throw. Larsen went in for Hanson. Holden missed a free throw as the quarter ended, in Brainerd's favor, 6-5.

Fourth Quarter: Whitlock went in for Opsahl. Davis made a field goal, bringing the score to 7-6. The crowd went wild. Larson made a free throw; Aitkin took time out. Rosenberg tied the score with a long basket. Whitlock was called for holding, and Holden made the throw. Rosenberg broke up Aitkin's attempt at stalling, scoring a long shot, a clean basket from center. Score 10-9. Tribur made a free throw, making the score 11-9. Foul was called on Tribur, and Holden made both, as the crowd sat tense. Score tied at 11 all as the game ended.

Overtime Period: Davis made a free throw. Whitlock missed a free throw. Holden went out on personal, Hanson taking his place. Kast threw a long one from center. Engbretson made a free throw, and the game ended, 14-12.

SWEDISH CHAMPION WHO
BROKE HIS OWN RECORD

Arne Borg broke his own record for 1,000 feet at the swimming championships at St. Augustine, Florida, by 35 and 1-5 seconds. His time for the distance was 12 minutes and 12 3-5 seconds.

sahl missed the short shot. Hanson fouled Dieckhaus, and on the first try Dieckhaus made the basket, but was over the line and the point was not allowed. He missed the second trial. Geer missed both attempts on a multiple foul. Holden missed a free throw. Larsen went in for Hanson. Holden missed a free throw as the quarter ended, in Brainerd's favor, 6-5.

Fourth Quarter: Whitlock went in for Opsahl. Davis made a field goal, bringing the score to 7-6. The crowd went wild. Larson made a free throw; Aitkin took time out. Rosenberg tied the score with a long basket. Whitlock was called for holding, and Holden made the throw. Rosenberg broke up Aitkin's attempt at stalling, scoring a long shot, a clean basket from center. Score 10-9. Tribur made a free throw, making the score 11-9. Foul was called on Tribur, and Holden made both, as the crowd sat tense. Score tied at 11 all as the game ended.

Overtime Period: Davis made a free throw. Whitlock missed a free throw. Holden went out on personal, Hanson taking his place. Kast threw a long one from center. Engbretson made a free throw, and the game ended, 14-12.

LEGION TEAMS BATTLE MONDAY

AITKIN AND CLOQUET TO DE-
CIDE BASKETBALL HONORS
OF SEASON

On Monday night at the Aitkin Armory, the Company B team of Aitkin will meet the Cloquet American Legion team. Each team has won one game from the other, and the deciding game on Monday is expected to attract many outside fans. Cloquet is coming down in four chartered buses, and has reserved one hundred and twenty seats for the game. The Aitkin team has won fifteen out of sixteen games played this year, losing only to Cloquet. J. H. Bollens of Brainerd will referee the game. Several Brainerd enthusiasts are planning to make the trip.

Energy Gasoline may be secured at Energy Station, Stein's Filling Station, Brandt Bros. Service Motor and Lively Auto Co.

French Proverb
Men make laws, but women make morals.

DRUGS EXCITE THE KIDNEYS, DRINK WATER

Take Salts at First Sign of Bladder
Irritation or Back-
ache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

FARRELL SAYS MANDELL IS A REAL CHAMP

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 21.—No title was at stake officially when Sammy Mandell and Sid Terris met recently in New York, but Mandell, as the winner, was generally accepted as being the logical successor to Benny Leonard as the world's lightweight champion. There is only one way his claim to the championship can be disputed and that is by inviting him to fight it out.

Mandell and Terris were admitted to be the class of the contenders that were listed by the New York Boxing Commission to compete in the elimination tournament that was planned as the means of finding Leonard's successor.

Mandell, Terris and Johnny Dundee, former featherweight champion, pulled out of the tournament, however, and they took with them most of the prestige that the commission hoped the winner of the tournament would gain.

Both Mandell and Terris were willing to compete in the tournament, but the commission wouldn't make a minor concession they asked. The managers of the two boxers asked in view of the fact that they were meeting before the tournament started that the winner be given a bye through the first round and that the loser be allowed to enter the first round. The commission would not consent to this arrangement and the two boxers declined to enter.

Dundee pulled out because he couldn't get into condition to fight for four months. This alibi cast some interesting angles on his hasty departure from Paris where he had been booked to meet Fred Bretonnel. Dundee said when he returned to this country that he came back to see a sick brother-in-law.

Mandell is a legitimate lightweight. Many of the boxers picked by the commission as contenders for the title will have great difficulty in making 135 pounds. Mandell is a good boxer, a fast worker and a promising puncher. He is not a killer yet, but he is a mere youngster and he ought to grow into a punch. It will be recalled that Leonard was not a great hitter at a corresponding stage of his career.

It is great fighting heart and a natural inclination to fight that are Mandell's most promising assets. He beat Terris because he had a stouter heart and was aroused to his most desperate fighting when he was hurt.

RADIOLAS GO TO PINE RIVER TODAY

EXPECT THAT A HARD FOUGHT BATTLE WILL RESULT

The Brainerd Radiola basketball team goes to Pine River today to play the city team of that city. A good fast game is anticipated, and the local boys hope to bring home the bacon.

This will be the Radiola's second trip to Pine River this season. In the first part of the season the Radiolas played the Pine River high school team, defeating them by a score of 16-14 in an extra five-minute period.

The Radiolas have enrolled for the Minnesota State Amateur Basketball tournament. The purpose of this tournament is that an independent championship team may be determined in a championship way. The state has been divided into sixteen districts. The tournament for this district will be held at Hackensack, with teams from Crow Wing, Wadena, Hubbard and Cass counties participating. The district meet is composed of practically ten or twelve teams, and the winners of the district meet, held at Hackensack on March 13 and 14, go to New Ulm, meeting the other district winners, March 20 and 21.

The Brainerd Radiolas are planning to secure the funds necessary for the Hackensack trip by giving an all day luncheon at the Jule block, corner 7th and Laurel streets, on Friday, Feb. 27th. This being pay day, store clerks and others will have an opportunity to get a good luncheon at any time during the day.

Air Pumped Under Ice of Three Minnesota Lakes to Save Lives of Game Fish

Jackson, Minn., Feb. 21.—Men are pumping air under the ice in Loon, Clear and Pearl lakes in an effort to save the game fish which are dying by the hundreds daily for lack of oxygen. The three lakes are frozen over solid. The work of giving the fish air was arranged by the Jackson County Game Protective league. These lakes were sealed of rough fish two years ago and the seiners put back in the water large numbers of game fish at that time.

RANGE QUINT BEATS STAPLES

CROSBY-IRONTON GOES WILD IN 26 TO 11 GAME LAST NIGHT

Crosby-Ironton high school beat Staples last night, 26-11, at Crosby. Staples led at the half, 10-4, but in the second half Crosby-Ironton went wild, scoring 22 points, and holding Staples to a single point. Lefty Staples for Crosby, playing a great game. Woock was the point getter, making four baskets and five free throws. Johnson was Staples star, making three baskets.

For Crosby-Ironton, Radesavich was right forward, Jellied and Westcott left forward, Woock center, Lefty right guard, and Darling left guard. For Staples, Johnson and Dunn were right forwards, Bryson left forward, Marlin and Arntson center, Black and Johnson right guard, and Jackson left guard. Miller refereed.

Y. M. C. A. JUNIORS WHIP LITTLE TIGERS

The Y. M. C. A. Juniors beat the Little Tigers last night at the Y. M. C. A., by a score of 26-9. Wise and Halvorson were the big guns for the Juniors, as usual. Wise made six baskets, Halvorson made two, Bentley one, and Chadbourn two; others playing for the Juniors were Paine, Miller, and Geist.

For the Tigers, Carroll Guin made two baskets, and Viken one. Viken also made three free throws. Other players were Mayo, Marshall, and Donald Guin. Hoffman refereed.

With the Oldtimers

Dubuque, Ia., Feb. 21.—Iron Man Joe McGinnity, one time pitching star for the New York Giants, has purchased an interest in the Dubuque club and will manage it next year. Although he is 54 years of age, he says he expects to pitch and win several games. He pitched on a couple header on two occasions last year with a semi-pro team.

Lively's expert repair men are at your service day and night. Phone 76.

LOST AND FOUND—CALL 74

AITKIN DEFEATS

BRAINERD 14-12 IN OVERTIME TILT

SLOW IN FIRST HALF, THE GAME PROVES LIVELY AT THE FINISH

ROSENBERG SHINES OUT AS NEW STAR IN LOCAL QUINT

Aitkin beat Brainerd last night in a game that started as a listless affair from the spectators' point of view, but which provided all the thrills necessary for a great game before the end of the contest. The score was 14-12, but the score does not tell all the battle. One overtime period was needed to determine the winner.

Aitkin scored five points before the Brainerd players got their eye on the basket. Then with the beginning of the second period, with the score 5-0, Opsahl made the first point for Brainerd on a free throw. During the rest of the quarter the game was nip and tuck, with many long shots attempted. With fifteen seconds of play left of the first half, Captain Engbretson came through with a neat basket, followed by a long basket by Rosenberg as the whistle blew for the half, with the score tied.

Until the third quarter, Aitkin kept the lead. At the start of this period, Engbretson put Brainerd in the lead for the first time when he scored a free throw, bringing the score to 6-5. From then on the lead changed hands, until Brainerd with hard fighting brought the score to 11-9. A foul was called on Tribur in the closing minute, and Holden made good on both attempts, tying the score, as the game ended.

In the overtime period, Kast made a clean goal from mid-floor, enough to give Aitkin the victory. For Aitkin, Holden was the center of the attack, playing a good floor game. Geer, center, also starred. Engbretson was the star for Brainerd, all over the floor and playing a wonderful game. Rosenberg played his best game of the season, one of the scrappiest fights put up by any Brainerd player this year. To these two men go the greatest credit for the hard game given Aitkin. Several times Rosenberg brought the crowd to its feet by his remarkable playing.

Aitkin showed its mettle in this comeback from the game at Brainerd when Brainerd won, 19-13. Their defense was impenetrable. Kast especially holding the Brainerd forwards to a minimum of short shots.

Dick Lewis, former University of Minnesota star, refereed the game, in excellent manner.

First Quarter: Several long shots were attempted by both sides, with no success. Davis missed a free throw. Geer took a perfect pass from Holden, and made the goal from under the basket, with Tribur right on his trail. Holden made good on one of two free throws. Hanson made a long shot; Brainerd took time out. The crowd was in an uproar. Quarter ended, score 5-0.

Second Quarter: Opsahl made a free throw. Both sides resorted to long shots. On fouls by Rosenberg and Dieckhaus, Aitkin missed both tries. With the period ending, Engbretson slipped through for a basket, followed a few seconds later by Rosenberg in a long shot, tying the score at 5-5 as the quarter ended.

Third Quarter: Holden fouled, and Rosenberg missed both shots. Poul called on Opsahl for blocking. Geer missed the attempt. Engbretson put Brainerd in the lead for the first time when he made good on a free throw. On a long pass to Opsahl, a perfect chance for a clear basket was thrown away when Op-

SWEDISH CHAMPION WHO BROKE HIS OWN RECORD

Arne Borg broke his own record for 1,000 feet at the swimming championships at St. Augustine, Florida, by 35 and 1-5 seconds. His time for the distance was 12 minutes and 12 3-5 seconds.

sahl missed the short shot. Hanson fouled Dieckhaus, and on the first try Dieckhaus made the basket, but was over the line and the point was not allowed. He missed the second trial. Geer missed both attempts on a multiple foul. Holden missed a free throw. Larsen went in for Hanson, Holden missed a free throw as the quarter ended, in Brainerd's favor, 6-5.

Fourth Quarter: Whitlock went in for Opsahl. Davis made a field goal, bringing the score to 7-6. The crowd went wild. Larsen made a free throw; Aitkin took time out. Rosenberg tied the score with a long basket. Whitlock was called for holding, and Holden made the throw. Rosenberg broke up Aitkin's attempt at stalling, scoring a long shot, a clean basket from center. Score 10-9. Tribur made a free throw, making the score 11-9. Foul was called on Tribur, and Holden made both, as the crowd sat tense. Score tied at 11 all as the game ended.

Overtime Period: Davis made a free throw. Whitlock missed a free throw. Holden went out on personals, Hanson taking his place. Kast threw a long one from center. Engbretson made a free throw, and the game ended, 14-12.

LEGION TEAMS BATTLE MONDAY

AITKIN AND CLOQUET TO DECIDE BASKETBALL HONORS OF SEASON

On Monday night at the Aitkin Armory, the Company B team of Aitkin will meet the Cloquet American Legion team. Each team has won one game from the other, and the deciding game on Monday is expected to attract many outside fans. Cloquet is coming down in four chartered buses, and has reserved one hundred and twenty seats for the game. The Aitkin team has won fifteen out of sixteen games played this year, losing only to Cloquet. J. H. Bollens of Brainerd will referee the game. Several Brainerd enthusiasts are planning to make the trip.
